GOVERNMENT OF UTTAR PRADESH

IRRIGATION DEPARTMENT

No. 602-I.B./86-B-16-A-(52-53)

Dated Lucknow, December 1, 1954

RESOLUTION

READ—

The Administration Report for the year ending March 31, 1955.

With the attainment of Independence, the activities of the Irrigation Department have expanded considerably during the last eight years and a large number of projects—both major and minor—have been taken up.

In consequence of the development of resources through the construction of new canals, tube-wells and reservoirs, bundhies, etc. all over the State, substantial progress was achieved on "Irrigation". The irrigable area of the State increased to 82·95 lakh acres by the end of the year 1952-53 as compared to 80·85 lakh and 67·80 lakh acres in the years 1951-52 and 1945-46, respectively. During the year under report, a record area of 7,270,215 acres was irrigated against the record of 7,105,682 acres of the preceding year. The total value of crops raised with the aid of State-owned Irrigation Works during the year was estimated at Rs.223·46 crores approximately as compared to Rs.218·40 crores in the preceding year. The total length of channels in operation at the end of the year was 30,114 miles including 20,151 miles of irrigating channels as compared to 29,015 and 19,525 miles respectively at the end of the previous year. The total number of tube-wells in operation was 2,554 against 2,593 tube-wells at the end of the previous year.

The following is a brief account of the activities in regard to "Productive" and "Unproductive" works completed or in progress during the year 1952-53. Among the "Productive" works, the work of increasing the capacity of the Upper Ganga Canal from 8,000 to 10,500 cusecs in order to utilize additional supplies in the Ganga river at Hardwar was commenced during the year. This would enable an additional area of one lakh acres to be irrigated in the *kharij fasl* every year. A number of extensions and improvements of the channels were carried out on the Western Canals. Construction of tube-wells and

extension of lined channels of the existing tube-wells was also continued satisfactorily. The work on the multi-purpose Rihand Dam and Power Station Project for generating 2,40,000 k.w. electrical energy was continued vigorously since its resumption in October, 1951.

Under "Unproductive" works, several schemes—new and existing—were executed. Their particulars are mentioned below :

Western Region—Construction of tube-wells against the sanctioned projects of 200, 50 and 440 tube-wells was continued. Surveys were carried out for siting 340 tube-wells in Mainpuri, Farrukhabad, Kanpur and Etah districts as approved by the Government of India under the Indo-U. S. Technical Co-operation Programme. Another 14 tube-wells in Bijnor district were taken up. By the end of the year 2,380 tube-wells were put into commission in Saharanpur, Muzaffarnagar, Meerut, Bulandshahr, Etah, Bijnor, Moradabad, Budaut and Bareilly districts.

Central Region—The extension of irrigation facilities was being provided by constructing 2,000 miles of new channels on the Sarda Canal and construction of the Pratapgarh and Daryabad Branches. Of these, 1,651 miles were put into commission. Work on the Jais-Jaunpur Branch was in progress as also on increasing the capacity of Sarda Canal by 2,000 cusecs.

The construction of 250 tube-wells by Messrs. Associated Tube-wells Limited continued and 80 wells were put in operation by the end of March, 1953.

Hill Region—The Kumauti Irrigation Project comprising 250 miles of channels in the hill districts and intended to irrigate 20,000 acres annually was started in 1949. Investigation of a number of minor irrigation schemes in Almora, Naini Tal, Garhwal and Tehri-Garhwal districts continued during the year. At the end of March, 1953, 112 miles length of channels had been completed and opened for irrigation.

Bundelkhand and Baghelkhand Region—Six new irrigation schemes, viz. Lalitpur Dam, Saprar Dam, Kabrai Lake, Nagwa Dam, Rangwan Dam and Belan and Tons Canal, in addition to several other bundhies and minor schemes were taken up. Work on Nagwa, Lalitpur and Saprar Dams and Kabrai Lake was completed and these were opened for irrigation in November, 1952. Under the Belan and Tons Canal Project, Baraunda Pick-up Weir came into operation in July, 1952, and 40 miles length of channels opened for irrigation.

Work on four new major projects, viz. Chandraprabha Dam, Alaura Dam, Matania Dam and Arjun Dam, which had commenced towards the close of the preceding year, was pushed on with good progress. The construction of Sindhganj Distributary and the extension of Ghaghar and Garai Canals systems also continued.

Apart from these works, construction of minor irrigation schemes comprising Majhgawan, Baghelkhand and Barwatola Bunds, Pali and Narhat Tanks, Meja Distributary and Naugarh Dam—Chandauli Canal was in progress.

Eastern Region—The State Five-Year Plan provides for the construction of 1,660 tube-wells in the eastern districts, out of which the Government of India approved the construction of 655 tube-wells in Gorakhpur, Deoria, Basti, Faizabad, Azamgarh and Sultanpur districts under the Indo-U. S. Technical Co-operation Programme. Materials for their construction were collected. The remaining 1,005 tube-wells were proposed to be constructed from the State finances if more outside aid was not obtainable. Of these, construction of 200 tube-wells in Azamgarh, Ballia, Ghazipur, Jaunpur and Banaras districts was started. Good progress was made on the 90 tube-wells in Faizabad and Gonda districts by Messrs. Associated Tube-wells Limited against the 440 Tube-wells Project. The progress on 60 departmental tube-wells in Faizabad district was satisfactory.

Detailed surveys continued briskly for the siting of the proposed tube-wells as also for irrigation schemes. One such was the Banganga Canal proposed to irrigate 22,000 acres in Basti district.

Works financed from revenue were also executed in the eastern districts. Construction of 100 tube-wells in Gorakhpur, Deoria and Basti districts was completed and the tube-wells put into commission.

The progress on the Hydro-electric Works under construction continued to be maintained. The construction of Sarda Hydro-electric Scheme, designed to generate 41,400 k.w. electrical energy, was speeded up so as to be completed by the end of 1954, as scheduled. The work on the Pathri Power House, designed to generate approximately 20,400 k.w. energy, also remained in progress. The power house is expected to be put into commission by the end of 1954.

Investigations and surveys were pursued during the year under report in connection with the following schemes :

- (i) Mala Surai Reservoirs in the upper reaches of the Sarda Canal,
- (ii) Goudak Canal in Gorakhpur and Deoria districts,
- (iii) Extension of Ghughra Canal to provide irrigation facilities in Faizabad District,
- (iv) Sarju Canal in Bahraich District,
- (v) Salona Pumped Canal in Azamgarh District,
- (vi) Bessu-Gangri Irrigation Scheme in Azamgarh District,
- (vii) Dohrighat Pumped Canal in Azamgarh District,
- (viii) Pumping Schemes from Tanks in Azamgarh District,
- (ix) Kuno Pumped Canal in Basti District,
- (x) Bhara and other Bunds in Agra District, and
- (xi) Minor Irrigation and Hydel Schemes in Kumaun.

The capital outlay during the year was Rs.5,94,54,650 including Rs.4,91,924 of indirect charges, and thereby the total outlay at the end of the year 1952-53, to Rs.45,43,56,826. The financial results of the working of all the Irrigation Works are compared below with those of the previous year :

	1951-52	1952-53
	Rs.	Rs.
Gross revenue realised	6,55,38,120	6,26,88,534
Working expenses	3,72,36,245	3,55,07,142
Net revenue	2,83,01,875	2,71,81,392
Interest Charges	1,36,44,298	1,54,18,584
Net profit	1,46,57,577	1,17,62,808

There was a fall in gross revenue on account of decrease in the sugarcane area on which irrigation rates are comparatively higher than those on other crops. A net gain of Rs.1,17,62,808 was obtained during the year as compared to Rs.1,46,57,577 of the previous year.

The Irrigation Research Institute dealt with a number of important investigations in connection with the projects under construction, such as Pathri Power House, Sarda Power House, designs of earth dams and embankments, designs of Rangawan, Chandraprabha, Ahraura, Arjun, Sinsi, Naugarh and Matatila Dams and problems relating to the training of Ganga and Sarda rivers, besides other tests and experiments.

The Irrigation Department continued to be administered by the following Chief Engineers during the year 1952-53 :

- (1) Sri Moti Ram, I.S.E., till August 15, 1952, Chief Engineer.
- (2) Sri A. C. Mitra, I.S.E., afterwards Ditto.
- (3) Sri B. P. Saxena, I.S.E. Chief Engineer (Additional).
- (4) Sri D. P. Rohatgi, I.S.E. Ditto.

The following casualties occurred in the engineering establishment of the Irrigation Department :

- (1) Sri Moti Ram, I.S.E., Chief Engineer, retired on May 16, 1952, forenoon, but was re-employed up to August 15, 1952.
- (2) Sri Chandra Lal, Superintending Engineer, retired on July 10, 1952.
- (3) Sri S. S. Chaudhari, Executive Engineer, retired on November 5, 1952.

The Food Production Organisation created in 1949, by the Government for the construction of some irrigation works in the Bundelkhand and for the

extension of lined channels of the existing tube-wells was also continued satisfactorily. The work on the multi-purpose Rihand Dam and Power Station Project for generating 2,40,000 k.w. electrical energy was continued vigorously since its resumption in October, 1951.

Under "Unproductive" works, several schemes—new and existing—were executed. Their particulars are mentioned below :

Western Region—Construction of tube-wells against the sanctioned projects of 200, 50 and 440 tube-wells was continued. Surveys were carried out for siting 340 tube-wells in Mainpuri, Farrukhabad, Kanpur and Etah districts as approved by the Government of India under the Indo-U. S. Technical Co-operation Programme. Another 14 tube-wells in Bijnor district were taken up. By the end of the year 2,380 tube-wells were put into commission in Saharanpur, Muzaffarnagar, Meerut, Bulandshahr, Etah, Bijnor, Moradabad, Budhni and Bareilly districts.

Central Region—The extension of irrigation facilities was being provided by constructing 2,000 miles of new channels on the Sarda Canal and construction of the Pratappgarh and Daryabad Branches. Of these, 1,651 miles were put into commission. Work on the Jais-Jaunpur Branch was in progress as also on increasing the capacity of Sarda Canal by 2,000 cusecs.

The construction of 250 tube-wells by Messrs. Associated Tube-wells Limited continued and 80 wells were put in operation by the end of March, 1953.

Hili Region—The Kumaun Irrigation Project comprising 250 miles of channels in the hill districts and intended to irrigate 20,000 acres annually was started in 1949. Investigation of a number of minor irrigation schemes in Almora, Naini Tal, Garhwal and Tehri-Garhwal districts continued during the year. At the end of March, 1953, 112 miles length of channels had been completed and opened for irrigation.

Bundeikhand and Baghelkhand Region—Six new irrigation schemes, viz. Lalitpur Dam, Saprar Dam, Kabrai Lake, Nagwa Dam, Ranganwari Dam and Belan and Tons Canal, in addition to several other bundhics and minor schemes were taken up. Work on Nagwa, Lalitpur and Saprar Dams and Kabrai Lake was completed and these were opened for irrigation in November, 1952. Under the Belan and Tons Canal Project, Baraunda Pick-up, which came into operation in July, 1952, and 40 miles length of channels opened for irrigation.

Work on four new major projects, viz. Chandraprabha Dam, Ahraura Dam, Matatila Dam and Arjun Dam, which had commenced towards the close of the preceding year, was pushed on with good progress. The construction of Shikharj Distributary and the extension of Ghaghar and Garai Canal systems also continued.

Apart from these works, construction of minor irrigation schemes comprising Majhawan, Baghelkhand and Barwatola Bunds, Pali and Narhat Tanks, Micja Distributary and Naugarh Dam—Chandauli Canal was in progress.

Eastern Region—The State Five-Year Plan provides for the construction of 1,660 tube-wells in the eastern districts, out of which the Government of India approved the construction of 655 tube-wells in Gorakhpur, Deoria, Basti, Faizabad, Azamgarh and Sultanpur districts under the Indo-U. S. Technical Co-operation Programme. Materials for their construction were collected. The remaining 1,005 tube-wells were proposed to be constructed from the State finances if more outside aid was not obtainable. Of these, construction of 200 tube-wells in Azamgarh, Ballia, Ghazipur, Jaunpur and Banaras districts was started. Good progress was made on the 90 tube-wells in Faizabad and Gonda districts by Messrs. Associated Tube-wells Limited against the 440 Tube-wells Project. The capital outlay during the year was Rs.5,94,54,650 including Rs.4,91,924 of indirect charges, and thereby the total outlay at the end of the year 1952-53, to Rs.45,43,56,826. The financial results of the working of all the Irrigation Works are compared below with those of the previous year :

Interest Charges	1,36,44,298	1,54,18,584

There was a fall in gross revenue on account of decrease in the sugarcane area on which irrigation rates are comparatively higher than those on other crops. A net gain of Rs.1,17,62,808 was obtained during the year as compared to Rs.1,16,57,577 of the previous year.

The Irrigation Department continued to be administered by the following Chief Engineers during the year 1952-53 :

- (2) Sri A. C. Mitra, I.S.E., afterwards .. Ditto.

- (2) Sri Chandra Lal, Superintending Engineer, retired on July 10, 1952.
- (3) Sri S. S. Chaudhari, Executive Engineer, retired on November 5, 1952.

The Food Production Organisation created in 1949, by the Government for the construction of some irrigation works in the Bundelkhand and for the

extension of some channels of the Sarda Canal System was abolished with effect from June 30, 1952, and all the works and charges of that organisation were brought under the administrative control of this department after that date. The Agriculture Engineering Department was also amalgamated with this department during the year. A huge construction and maintenance work was thus added to the Irrigation Department.

Acknowledgments—“Sri Moti Ram, I.S.E., held the post of Chief Engineer till August 15, 1952, and was succeeded by Sri A. C. Mitra, I.S.E., who till then was Additional Chief Engineer. Sri B. P. Saxena, I.S.E. and Sri D. P. Rohatgi, I.S.E., held the posts of Additional Chief Engineers throughout the year. The Governor wishes to place on record his appreciation of the valuable service rendered to the Irrigation Department of the State by the above officers in the implementation of the Irrigation Programmes. The Department has put in another year of commendable service to the people of the State and has been responsible for the very considerable increase in agricultural productivity, a matter of vital national importance. In spite of paucity of senior and experienced officers and various difficulties relating to materials and transport, the Department maintained its high reputation for efficiency and expedition.”

“Sri Rajyapal considers that the year has been marked by achievements of great magnitude under difficult conditions and desires to convey his thanks to all officers and the staff of the Department for their contribution to the nation-building activities.”

ORDER

ORDERED that the above resolution be submitted to the Government of India and that it be published in the *Uttar Pradesh Gazette*.

ORDERED also that it be circulated to other Governments and Departments, as usual.

And whereas on spot inspection made by the Assistant, Trade Unions Inspector on the 26th March, 1954, revealed that nearly all the members of the Union were honorary members and the subscription had been realized during the last six months nor any dues had been received; and that no such person could appear before the Registrar during enquiry on the 30th March, 1954, who could claim himself to be an ordinary member of the Union, which showed that the Union had ceased to exist. And whereas a notice no. 3708-12/54 of the 14th March 1954, under section 10(b) of the Indian Trade Unions Act, 1926 was issued to the President and the Secretary of the Union to show cause within two months

of that receipt of that notice, why the Certificate of Registration granted to it should not be cancelled on the ground that the Union had ceased to exist, but no reply has been received from them so far.

None, therefore, no cause having been shown, the Certificate of the Registration of the Modi Textiles Mills Mazdoor Sabha, Modinagar, Morad, is hereby cancelled under section 10(b) of the Indian Trade Unions Act, 1926.

WHEREAS the Kundan Sugar Mill Labour Union, Amroha, registered as a Trade Union under no. 424 of the year 1947-48, has committed a breach of section 28 of the Indian Trade Unions Act, 1926 (XVI of 1926), read with regulation 17 of the Regulations under the said Act by failing to submit to the undersigned a correct annual return for the year ended with the 31st March, 1954, by the prescribed date, viz. the 31st of July, 1954, notice under section 10(b) of the Indian Trade Unions Act, 1926, is hereby given to the Kundan Sugar Mill Labour Union, Amroha, to show cause to the undersigned on or before the expiry of two months from the date of receipt of this notice, why the Certificate of Registration granted to it should not be cancelled.

Monthly Agricultural Report of Uttar Pradesh for the
month of November, 1954

I—Season

During the month under report, there was no rain in any district of the State except for sporadic showers in a few districts during the first week. The weather remained cool, clear and dry with ample sunshine. The total rainfall for the month was in defect of the normal in almost all the districts of the State. Winter rains were needed in the majority of the districts for the germination and growth of *rabi* crops.

II—Agricultural Operations

Sowing of *rabi* crops was practically over throughout the State. Harvesting and crushing of the sugarcane crop, mostly ratoon, for the manufacture of sugar in the factory areas and *gur* and *rab*-making in the non factory areas were in progress in many districts. Preparation of land for the next sugarcane and *zaid* crops was going on in some districts. Harvesting and threshing of late *kharif* crops were in progress in almost all the districts. Picking of cotton was being done in the cotton growing districts. The standing sugarcane and *rabi* crops were irrigated in a number of districts.

IV—Prospects of Harvest

Except in the draught affected areas, the germination of the newly planted *rabi* crops, and the condition and prospects of outturn of sugarcane and the late *kharif* crops were quite satisfactory. Late paddy, however, sustained extensive damage owing to scanty rains in certain parts of the Banaras, Jaunpur, Deoria, Azamgarh, Gorakhpur, Mirzapur and Ghazipur Districts.

In the annexed statement are shown the district-wise estimates of anna condition for the various *kharif* crops for the current year, as reported by the District Officers.

V—Damage to crops

Besides the damage caused by draught to the newly planted *rabi* crops and the standing sugarcane and the late *kharif* crops, particularly late paddy, described in the preceding section, reports of damage to the standing crops by pests and diseases were received from the Entomologist to Government, Uttar Pradesh. According to these reports, fresh locust swarms visited several districts of the State but caused no material damage to the standing crops except in the Kanpur and Jalaun Districts where the total area affected in consequence was about 700 acres. Stray attacks by insect pests and field rats on the standing crops were reported from several districts. Control measures against these pests and field rats were undertaken by the Plant Protection Service, Uttar Pradesh.

VI—Agricultural stock

The condition of the live stock was on the whole satisfactory, although cattle diseases have, as usual, been reported from a number of districts. The figures for the number of seizures, deaths and mortality from infectious cattle diseases during this and the preceding months are presented in the table given below, which has been prepared from the data furnished by the Director of Animal Husbandry and Fisheries, Uttar Pradesh. It would be seen from this table that as compared with the previous month, there were decreases of 77.4 and 84.4 per cent. respectively in the total number of seizures and deaths, resulting in a decline in mortality from 28 to 19. As regards Anthrax, there were 11 cases of both seizures and deaths as compared to 2 of each in the preceding month, in consequence of which the mortality remained stationary at 100. In the case of Haemorrhagic Septicaemia, the number of seizures and deaths recorded decreases of 89.6 and 88.4 per cent. respectively and mortality registered a rise from 86 to 95. There were also decreases of 54.4 and 46.9 per cent. respectively in the number of seizures and deaths from Black Quarter, but mortality rose from 86 to 100. As for Rinderpest, both the number of seizures and deaths decreased by 85.5 and 89.2 per cent. respectively, mortality declining from 66 to 49. As for Foot and Mouth disease, the number of seizures registered a fall of 73.9 per cent. but there were no cases of death as against 42 in the previous month, as a result of which mortality fell from 2 to zero. As regards other diseases, there was a decrease of 51.4 per cent. in the number of seizures but an increase of 45.5 per cent. in the number of deaths, which led to sharp rise in mortality from 30 to 89.

Whereas the Bharat Homeo Pharmacy Karamchhari Sangh, Lucknow, registered under no. 1166 of 1933-34 as a Trade Union, was inspected by an Assistant Trade Union Inspector on June 25, 1954, and the inspector noticed that the members of the union were not paying their subscriptions and no meetings of the union were held. It, therefore, appears that the said Sangh has ceased to exist.

And whereas the Secretary of the Union was asked, vide my office registered A. D. letter, dated September 18, 1954, to report if the Sangh was functioning in terms of its constitution, but no reply has yet been received to that letter.

Now, therefore, notice under section 10(b) of the Indian Trade Unions Act, 1926, is hereby given to Bharat Homeo Pharmacy, Karamchhari Sangh, Lucknow, to show cause to the undersigned on or before the expiry of two months from the date of receipt of this notice, why the Certificate of Registration granted to it be not cancelled, on the ground that the Sangh has ceased to exist.

Monthly agricultural report of Uttar Pradesh for the Month of January, 1955

I—Season

During the first week of the month under report, there was practically no rain throughout the State. During the second week, there were light and sporadic showers in about half of the districts of the State and no rain in the rest. During the third and fourth weeks, there were light showers to heavy rain in almost all the districts of the State, rainfall during the fourth week being generally heavier than during the third week. The rains were accompanied by hailstorm in certain parts of the Farrukhabad, Etawah, Mainpuri, Gonda, Basti, Bahraich, Faizabad and Moradabad districts. The total rainfall for the month was in moderate to large excess of the normal in most districts of the State.

II—Agricultural Operations

Preparation of land for the next sugarcane and *zaid* crops continued in a large number of districts. Sowing of the next sugarcane and *zaid* crops was in progress in some districts. Harvesting and crushing of sugarcane for the manufacture of sugar, *gur* and *rab* continued in almost all the districts of the State. Digging of potatoes continued and harvesting of peas and mustard had commenced in a few eastern districts. Irrigation of the standing *rabi* crops was resorted to during the first fortnight of the month but was generally subsequently suspended owing to rains.

III—Standing crops

and

IV—Prospects of Harvest

The winter rains proved highly beneficial to the standing *rabi* crops, particularly in the unirrigated areas. The condition of the standing *rabi* crops and their prospects of outturn continued to be generally satisfactory so far. However, the future prospects of outturn of *rabi* crops are largely dependent on the character of season in the immediate future.

V—Damage to crops

Some localised damage to the standing *rabi* crops by hailstorm was reported from the Farrukhabad, Etawah, and Gonda districts. Slight damage to the *arhar* and peas crops by forest was also reported from several districts. According to the reports received from the Entomologist to Government, Uttar Pradesh, a fresh locust swarm visited the Aligarh, Mathura and Etah districts but no material damage was caused to the standing crops. Stray attacks by insect pests and field rats on the standing crops were reported from several districts. Congrol measures against these pests and field rats were undertaken by the Plant Protection Service, Uttar Pradesh.

VI—Agricultural stock

The condition of the live stock was on the whole satisfactory, although cattle diseases have, as usual, been reported from a number of districts. The figures for the number of seizures, deaths and mortality from infectious cattle diseases during this and the preceding months are presented in the table given below, which has been prepared from the data furnished by the Director of Animal Husbandry and Fisheries, Uttar Pradesh. It would be seen from this table that, as compared with the previous month, there were increases

of 120.0 per cent and 95.9 per cent in the total number of seizures and deaths respectively but the mortality decreased from 13 to 11. As regards Anthrax, there was not a single case of seizure or death during this month as compared to 15 of each in the previous month. In the case of Haemorrhagic Scepticæmia, both the number of seizures and deaths rose to about 1.8 times those in the preceding month, resulting in a slight rise in mortality from 88 to 90. There were 14 cases of both seizures and deaths from Black Quarter as compared to 12 of each in the previous month, as a result of which mortality remained stationary at 100. As for Rinderpest, both the number of seizures and deaths increased respectively to about 1.8 and 2.8 times those in the previous month, and mortality rose from 52 to 81. As regards Foot and Mouth disease, the number of seizures increased to about 2.4 times of that in the preceding month, but there were 22 cases of deaths as compared to one in the previous month, in consequence of which mortality rose from 0.05 to 0.43. As regards other diseases, both the number of seizures and deaths recorded a steep decline from 105 and 50 respectively during the previous month to 6 and 5 respectively during this month, but the mortality rose from 48 to 83.

TABLE—Number of seizures, deaths, and mortality from Infectious Cattle Diseases, during the months of December, 1954 and January 1955.

VII—Pasturage and Fodder

Pasturage and fodder were reported to be generally adequate in almost all the districts of the State except a few from where scarcity of pasturage was reported.

VIII—Health and Labour in Rural Areas

The health of the labouring population engaged in agriculture in rural areas was reported to be generally satisfactory.

(i) The following resolution of Srimati D. S. Briscoe:

"Question of appearing in the examination cannot be understood properly, i. e., how many chances a girl can have for the first year and final. Often one year is counted as first chance or after one and a half years is counted as first chance. Same in the case of the Finals after three years is counted as first chance or after three and a half years is counted as first chance."

(ii) The following resolution of Srimati D. S. Briscoe:

"The girl from March, 1953, batch who fails in March, 1954 is allowed to sit in September, 1954. She again fails and allowed in March, 1955, and again fails. She is again allowed to sit in September, 1955, and passes which means after two and a half years she passes only first year and does not attend any lectures of the third year's course. In March, 1956, she is allowed to appear for final and might pass. By doing this she does not make an efficient staff nurse. This practice somehow should be stopped, or the time for the third year should be extended. In most of the cases this sort of student fail twice or thrice even in the final. By this sort of chances to such poor students only waste of Government money. There may be two chances allowed for the first year examination, i. e. a girl

of March, 1953 fail in March, 1954 she should be allowed to appear only once more in September, 1954, and after that for final in March, 1956. If she fails in final she may be given one more chance and no more."

(iii) The following resolution of Kumari G. P. Kapadia:

"Resolved that there should be a minimum period of one year between first and final year examination."

(iv) Appeal of Srimati Ashawanti Singh (*see* Timothy).

(v) Request of Kumari Grace Lal for registration of her nursing and midwifery qualifications.

(vi) Request of Srimati Winnie Williams for registration of her nursing and Assistant Midwifery qualifications.

(vii) Request of Kumari Bertha Dhar for registration of her nursing and midwifery qualifications.

21. Considered the following resolution of Kumari G. P. Kapadia:

"Resolved that steps may be taken for enrolment of new nurses regularly every six months."

Decision.—The Council is of the opinion that admission of new nurses should be done at the time as provided in the rules.

22. *Considered.*—The following resolution of Kumari G. P. Kapadia:

"Resolved that certificated sisters and staff nurses be tested in General Knowledge, English and Arithmetic besides Hindi for basic test.

Also a report from the head of institutions *re* professional suitability be obtained before allowing a candidate to appear for diploma examination."

Decision.—The Council agreed with the above resolution.

23. *Considered.*—The following resolution of Kumari G. P. Kapadia:

"Should students failing the first examination for the first, second or third time be permitted to attend the first year as well as final year lectures?"

Decision.—This is covered by the decision taken on resolution no. 12 *supra*.

24. Kumari G. P. Kapadia raised the question of numbering of badges.

It was resolved that the badges should be numbered and the additional cost on that account be charged from the nurses, i. e. the price of the badges be raised to Rs.4 each.

25. Srimati D. S. Briscoe raised the question that the pass marks in the papers in Midwifery should be 50 per cent. instead of 40 per cent. as at present. It was accepted.

26. The Council directed that a circular be again issued to all Matrons and the Superintendent of Nursing Services, U. P., requesting that it should be impressed upon all the nurses, etc. that serious action will be taken against those who make interpolation in any document.

OFFICE OF THE REGISTRAR OF TRADE UNIONS
UTTAR PRADESH

(Notice under section 10(b) of the Indian Trade Unions Act, 1926)

WHEREAS the Press Workers Union Agra, registered as a Trade Union under no. 527 of 1948-49 was asked vide my office letter dated 14th July 1954, to send a correct list of the Executive Committee, to obtain a certified copy of its registered constitution and also to get its changed address registered but no response was made by the Union, "despite several reminders". It, therefore, appears that the Union has now ceased to exist.

Notice under section 10(b) of the Indian Trade Unions Act, 1926 is, therefore, hereby given to the Press Workers Union, Agra to show cause to the undersigned within two months from the date of the receipt of this notice why the certificate of registration granted to it should not be cancelled on the ground that the Union has now ceased to exist and it has also failed to comply with the statutory formalities of getting its changed address registered in my office.

WHEREAS the Municipal Shiksha Vibhag Karmchhari Union, Moradabad, registered as a Trade Union under no. 798 of 1949-50 was inspected on the 20th June 1953, and it was revealed that the account books, membership register, and other records of the Union were not kept properly, the Union had changed the rate of subscription in the month of April, 1953, but no action was taken to get the changed rate registered. After that the Assistant Trade Union Inspector went on the 26th September 1954, to inspect the records of this Union and also to see whether the records of the Union are kept in proper order and the provisions of the constitution are complied with or not but no officer of the Union presented himself to get the records of the Union inspected. Thereafter the Assistant Trade Union Inspector again went to enquire into the matter on the spot on the 16th January 1955, but no one attended in spite of a previous notice to the Union. The Assistant Trade Union Inspector went to see the President at the registered office of the Union but no body was found there.

It, therefore, appears that the Union has now ceased to exist and its President is avoiding, checking of the information given in the Annual Return of the Union by avoiding inspection of records.

Notice under section 10(b) of the Indian Trade Unions Act, 1926, is, therefore, hereby given to the Municipal Shiksha Vibhag Karmchhari Union, Moradabad, to show cause to the undersigned within two months from the date of the receipt of this notice why the certificate of registration granted to it should not be cancelled on the grounds that the Union has now ceased to exist.

WHEREAS the Chini Mill Mazdoor Union, Shamli, district Muzaffarnagar, registered as a Trade Union under no. 460 of the year 1947-48, has committed a breach of section 28 of the Indian Trade Unions Act, 1926 (XVI of 1926), read with regulation 17 of the Regulations under the said Act by failing to submit to the undersigned a correct Annual Return for the year ended with the 31st March, 1954, by the prescribed date, viz., the 31st of July, 1954, notice under section 10(b) of the Indian Trade Unions Act, 1926 is hereby given to the Chini Mill Mazdoor Union, Shamli, district Muzaffarnagar, to show cause to the undersigned on or before the expiry of two months from the date of receipt of this notice, why the certificate of registration granted to it should not be cancelled.

JWALA PRASAD SINGH,

Inspector General of Registration.

Monthly Agricultural Report of Uttar Pradesh for the Month of February, 1955

I—Season

During the first and second weeks of the month under review, there were light showers to moderate rain in most districts of the State and no rain in the rest. During the third and fourth weeks, there was practically no rain throughout the State. The total rainfall for the month was in defect of the normal in all the districts except a few, where it was in excess.

II—Agricultural operations

Preparation of land for, and sowing of, the next sugarcane and *zaid* crops continued practically throughout the State. Harvesting and crushing of the standing sugarcane crop for the manufacture of sugar, *gur* and *rab* were in progress. Harvesting of early *rabi* crops, particularly peas, mustard and *saujan* also commenced in some districts. The standing *rabi* and the newly sown *zaid* crops were irrigated in a few districts.

III—Standing crops and

IV—Prospects of harvest

Rains during the month proved beneficial to the standing crops. The condition of the standing *rabi* crops and their prospects of outturn continued to be generally satisfactory except in areas affected by hail, frost and drought. On the basis of the information received so far from the District Officers, the average anna condition of *rabi* crops for the State is estimated at 13·5 annas or about 84 per cent. of the normal (16 annas denoting the normal crop).

V—Damage to crops

Slight damage to the standing *rabi* crops by frost was reported from the Allahabad, Banda and Rae Bareilly districts. There was hailstorm towards the close of the month in certain villages of the Muzaffarnagar, Banaras and Azamgarh districts. Localized damage to the wheat and barley crops by water-logging

and rust was reported from the Sultanpur district. According to the reports received from the Entomologist to Government, Uttar Pradesh, some damage by field rats to the wheat, barley, gram, peas and sugarcane crops was caused in several districts of the State. Stray attacks by insect pests on the standing crops were also reported from several districts. Control measures against these field rats and pests were undertaken by the Plant Protection Service, Uttar Pradesh.

VI—Agricultural stock

The condition of the live-stock was on the whole satisfactory although cattle diseases have, as usual, been reported from a number of districts. The figures for the number of seizures, deaths and mortality from infectious cattle diseases during this and the preceding months are presented in the table given below, which has been prepared from the data furnished by the Director of Animal Husbandry and Fisheries, Uttar Pradesh. It would be seen from this table that, as compared with the previous month, there was a rise of 10·3 per cent. in the total number of seizures but a decline of 23·7 per cent. in the total number of deaths, resulting in a decline in mortality from 11 to 8. As regards Anthrax, there were 64 cases of seizures and 60 cases of deaths as against no case of seizure or death during the preceding month. In respect of Haem. Sept. there was a rise of 35·3 per cent. in the number of seizures and a rise of 44·6 per cent. in the number of deaths, giving a rise in mortality from 90 to 96. In the case of Black-quarter, both the number of seizures and deaths increased to about 3 and 2·5 times respectively those in the preceding month, but mortality fell from 100 to 80. There were decreases of 68·1 per cent. and 71·6 per cent. respectively in the number of seizures and deaths from Rinderpest and mortality also fell from 81 to 72. As regards Foot-and-Mouth disease, there was a rise of 15·8 per cent. in the number of seizures but a decline of 40·9 per cent. in the number of deaths, resulting in a decline in mortality from 0·43 to 0·22. There was no case of seizure or death from Other Diseases during this month as against 6 cases of seizures and 5 of deaths in the previous month.

OFFICE OF THE REGISTRAR OF TRADE UNIONS, UTTAR PRADESH, KANPUR

[Notice under section 10(b) of the Indian Trade Unions Act, 1926]

WHEREAS the Railway Porters and Coolies Union, Dehra Dun, registered under no. 1177 of 1953-54, as a Trade Union under section 8 of the Indian Trade Unions Act, 1926 (XVI of 1926), contravened the provisions of section 25 of the said Act by failing to submit to the undersigned its annual return/a correct annual return for the year ending on March 31, 1954, by July 31, 1954, the date prescribed by regulation 17 of the Regulations framed under the Indian Trade Unions Act 1926, a notice under section 10(b) of the said Act was issued to the said Union to show cause, within two months of the service of the notice, why the certificate of its registration should not be cancelled. The period of the notice expired on March 22, 1955. The annual return/a correct annual return for the year described above has not been furnished even up to this date.

No cause/satisfactory cause, having been shown, the certificate of registration of the Railway Porters and Coolies Union, Dehra Dun is hereby cancelled under section 10(b) of the Indian Trade Unions Act, 1926.

The President of the Union, Sri Dwarkanath Dhawan, and the Secretary, Sri Gur Bachan Singh, are also hereby warned that this time only the registration certificate of the Union is cancelled for non-submission of the Return by the prescribed date. In future legal action will be taken against the office bearers of the Union, under section 31 of the Indian Trade Unions Act, 1926, in the event of recurrence of such a default.

WHEREAS the Star Paper Mills Workers Union, Saharanpur, registered as a Trade Union under no. 486 of 1948-49, was inspected by the Assistant Trade Unions Inspector on January 22, 1955, and his post enquiries revealed that no member of the Union had paid subscription for the last one year.

And whereas, the membership ceases on failure to pay two consecutive monthly instalments of subscription according to article 9 of the unions registered constitution.

And whereas, no meeting of the Union was held and the union did not maintain any admission form, proceeding books and membership register, and the Secretary of the Union had intimated in his letter dated September 3, 1954, that he had been trying to organise the Union and also to arrange for the election but he could not be successful.

Now therefore, it appears that the above named Union has now ceased to exist.

At the time of the inspection the registration certificate and the copy of the registered constitution of the union were not found with the Union. The Union had no submission forms and it was also noticed that no meeting of the union had been conducted after December 15, 1953. The Union was instructed vide my office letter dated August 9, 1954, that if the records of the union were not kept properly and the provisions of its constitution were not complied with the registration of the union shall have to be cancelled but no notice was taken. It, therefore, appears that the union is not functioning now and it has ceased to exist.

Notice under section 10(b) read with section 12 of the Indian Trade Unions Act, 1926 is, therefore, hereby given to the Brass Sheet Mills Workmen's Trade Union, Moradabad, to show cause to the undersigned within 2 months from the receipt of this notice why the certificate of registration granted to it should not be cancelled on the ground that the union has now ceased to exist and has committed a breach of aforesaid section 12.

No. 2016-C/IX—126-D-54

Dated Lucknow, May 19, 1955

[Review on the Working of District Boards in Uttar Pradesh during the year 1953-54]

RESOLUTION

READ—

(1) District Magistrates' Reviews on the working of District Boards during the year 1953-54.

(2) Annual Report on the working of the Local Fund Audit Department, Uttar Pradesh, for the year 1953-54.

OBSERVATIONS :

Constitution—There was no increase in the number of District Boards in the State, and the 49 District Boards, one in each District of the State excepting Rampur and Tehri-Garhwal, and the Sub-District Board, Bhadohi in district Banaras, functioned as in the previous year. The District Board, Mirzapur, which was superseded during the year 1952-53, remained under supersession.

2. The districts of Rampur and Tehri-Garhwal, which were created upon the merger of the erstwhile States, remained without a Board, but the Local Self-Government activities were carried out in those districts through District Planning Committees, which

were sanctioned the following grants by Government for the purpose :

			Grants sanctioned during	
			1953-54	1952-53
Rampur	1,15,000	1,25,000
Tehri-Garhwal	1,00,000	1,00,000

3. The difference of Rs.10,000 in the figures relating to Rampur for the years 1952-53 and 1953-54 was due to the inclusion in the Local Self-Government Budget for 1952-53 of a corresponding provision made in the Education budget in 1953-54 on account of primary schools.

4. The vacancies in the office of the President in the two Boards of Etah and Hamirpur remained unfilled, because of a stay order passed by the High Court in respect of the vacancy in the District Board, Etah and for administrative reasons, in the District Board, Hamirpur. Due to the death of the President, District Board, Pilibhit, on October 14, 1953, and the resignation of the President, District Board, Bahraich, two other vacancies occurred during the year which were filled through bye-elections—the senior Vice-Presidents having been elected in both the cases—held on December 9 and 13, 1953, respectively.

5. There were 51 casualties amongst members on account of death, resignation and removal.

6. **Meetings**—In all 463 meetings were held by all the Boards, as against 476 during the previous year. T.n meetings proved abortive for want of quorum and

14 were adjourned. The number of abortive and adjourned meetings during the previous year was 16 and 10, respectively.

7. The statutory provision regarding minimum number of meetings was not observed by the following 23 Boards as against 25 during the previous year :

The attendance was generally satisfactory excepting in the District Boards of (1) Bareilly, (2) Banda, (3) Hamirpur, (4) Ghazipur, (5) Deoria, (6) Lucknow, (7) Unnao, (8) Gonda, (9) Bahraich, (10) Sultanpur, and (11) Pratapgarh, where it was below 60. One hundred and four members did not attend even a single meeting during the year.

9. Committees—The Committees set up by the Boards worked harmoniously and gave valuable advice within their spheres. The administration was generally speaking conducted satisfactorily.

10. Finances—The following are the comparative figures of the Boards' income and expenditure for the years 1952-53 and 1953-54 :

11. The figures of the Opening Balance for the year 1953-54 should have been the same as that of the Closing Balance for the year 1952-53, but it was in excess of Rs.1,13,856 (1,01,28,216—1,00,12,360). This was due to the differences in the figures reported by the Jhansi and the Muzaffarnagar Boards, which were as follows :

	Opening balance for 1953-54	Closing balance for 1952-53	Difference
1. District Board, Jhansi	40,339	85,630	- 45,291
2. District Board, Muzaffarnagar	6,18,527	4,57,380	+ 1,59,147
Total	1,13,856

These discrepancies were due to subsequent reconciliations in accounts.

12. The increase in income is attributable mainly to—

- increased Government grants ; and
- increase in Government grants paid in lieu of local rate due to revision of figures.

13. Education—During the year under report, the Boards undertook adjustment of schools according to local needs. Accordingly a good number of unecological schools were closed down and some new ones

were opened. Aid was discontinued to schools whose enrolment was low, and as a result the number of schools maintained by the Boards came down from 27,865 to 27,706, and that of the aided ones, from 2,278 to 1,942. On account of the fall in the number of schools, the number of scholars also decreased from 24,21,470 to 24,19,295. The number of scholars per mille of population and the cost per scholar worked out to 44 and Rs.20, as against 43 and Rs.19, respectively, during the previous year.

14. The income of the Boards from these schools, however, increased from Rs.83,89,170 to Rs.85,52,413 on account of increase in the rate of fees and receipt of arrear contribution from other local bodies. The expenditure also increased from Rs.5,04,24,541 to Rs.5,06,49,300 on account of payment of arrears of salaries and provident fund to teachers. The arrears of Rs.23,14,222 still outstanding represent the amount payable to teachers on account of the increments earned by them and the difference between the rates of dearness allowance prescribed by Government and those being allowed by the Boards.

15. Industrial Education—As in the previous year, each of the Boards of Muzaffarnagar, Gorakhpur and Hardoi maintained, and that of Bara Banki subsidized, one Industrial school for boys. The District Board, Gonda, also started giving aid to one such

school. The schools was down its Income Mathura, dis viously subsid

school. The number of scholars on roll in these schools was 135. The District Board, Almore, closed down its Industrial School, and the District Board, Mathura, discontinued aid to the single school previously subsidized by it.

16. **Medical**—The Boards maintained 719 dispensaries as against 730 during the previous year. They also subsidized 180 Vaidas, Hakims, Medical Practitioners and dispensaries as against 140 during the previous year. Thus the number of Boards' own dispensaries fell by 11, whereas that of subsidized institutions went up by 40. The increase was due, in the main, to the fact that the District Board, Allahabad, started aiding 34 Medical Practitioners, and the decrease in the number of dispensaries arose on account of the provincialization of certain dispensaries and the closure of some others by certain Boards.

17. The medical facilities provided at the dispensaries and by the Vaidas, Hakims, and Medical Practitioners were taken advantage of by 1,01,31,934 patients as against 92,54,423, during the previous year i.e. out of every 1,000 persons 185 as against 105 in the previous year, were treated. Also 2,17,031 operations were performed as against 1,94,660 during 1952-53.

18. The income of the Boards under the head increased from Rs.1,43,482 to Rs.1,67,709 and Government paid grants totalling Rs.4,57,763. The total expenditure incurred by the Boards being Rs.35,46,706, they had to find a sum of Rs.29,31,234 out of their own Funds.

19. **Public Health**—Eight hundred and thirty-nine vaccinators worked throughout the year and inoculated 23,54,107 persons as against 22,93,300 during the previous year. Thus on an average 2,803 persons were vaccinated by each vaccinator. The average number of persons inoculated per mill of population works out to 43 as against 40 during the previous year.

20. The number of births registered a decrease from 10,13,041 to 10,09,929 but that of deaths registered increase from 6,25,253 to 6,32,589. The number of births and death entries tested was 5,61,254, as against 6,85,805 during the previous year.

21. The income of the Boards under this head was Rs.1,42,787 plus Government Grants totalling to Rs.91,413. The expenditure incurred under the head amounted to Rs.14,01,908. Thus, the Boards had to find a sum of Rs.11,67,708 on their own to meet the entire expenditure.

22. **Public Works**—The mileage of roads maintained by the Boards was 24,595 miles; it included 1,784 miles of metalled and 22,811 miles of unmetalled roads. The Boards spent Rs.35,40,813 over their maintenance and Rs.3,36,244 over improvements.

23. **Accounts**—Apart from the annual audit of the Boards' accounts, a special audit was carried out of the expenditure pertaining to the grant of Rs.80,000 paid to the District Board, Allahabad, for improvement of the Naini Railway Feeder Road.

24. The special audit brought to light numerous irregularities and facts on record not only established the negligence of the staff in several cases but also raised suspicions of corruption.

25. The general condition of accounts showed improvement, and greater alertness towards the disposal of audit objections was noticeable. The condition of the school and pound accounts, was, however, not satisfactory and they, in particular, call for a stricter supervision.

26. In spite of the poor finances, there were instances in which excessive and avoidable expenditure was incurred. There were numerous cases of irregular and incorrect fixation of pay and of grant of unauthorised allowances to employees. Collection of dues was very unsatisfactory, and, in general, the work of collection left much to be desired.

27. A number of embezzlements, due mainly to slack supervision and indifference towards accounts rules, was detected. The Boards concerned did not always deal with such cases satisfactorily.

28. A few important instances are quoted below:

(i) **Ballia**—A misappropriation of Rs.26,554 in the Provident Fund Accounts of the Education Section was detected.

(ii) **Pauri Garhwal**—A defalcation of Rs.4,933 out of the collection of the school dues for the months of March, 1952 to March, 1953 was detected.

(iii) **Basti**—An embezzlement of Rs.1,675 in the accounts of the Junior High School, Chhawani was detected. The school accounts had not been checked by the inspecting officers for two years.

(iv) **Kheri**—Collections totalling to Rs.3,434 were retained at the Junior High School, Kheri and were credited at the time of the audit.

29. The District Boards should exercise greater vigilance over the accounts and ensure prompt attention to audit objections.

30. **Conclusion**—The District Boards should make the fullest use of the sources of income available to them and should exercise greater care and vigour in the assessment and collections of their dues. The heavy expenditure over administration should be reduced by a judicious scrutiny of the staff requirements, and dependence over Government grants should be gradually reduced.

21. The Boards should strive to fulfil their obligations to the area they serve by providing more money for works and activities of public utility. Particular attention should be paid towards collection works and greater vigilance should be shown in the supervision of accounts and enforcement of rules.

32. The Boards should also ensure timely submission of their Annual Reports to avoid delay in the publication of the Government Resolution.

Monthly Agricultural Report of Uttar Pradesh for the month of March, 1955

May 19, 1955

I—Season

During the first week of the month under report, there were light showers in a number of districts of the State and no rain in the rest. During the second week, there was practically no rain throughout the State. During the third and fourth weeks, there was no rain except for scanty showers in some districts. The total rainfall for the month was in defect of the normal in almost all the districts of the State except a few where it was in excess. Rains during the month were generally accompanied by hailstorm in a number of districts.

II—Agricultural Operations

Preparation of land for, and sowing of, the next sugarcane and *zaid* crops were in progress in some districts. Harvesting and crushing of sugarcane for the manufacture of sugar and *gur* continued in a few districts. Harvesting and threshing of *rabi* crops were in full swing throughout the State. The newly sown sugarcane and *zaid* crops were irrigated in some districts. Preparation of seed-bed for *kharif* crops commenced in a few districts.

III—Standing Crops

and

IV—Prospects of Harvest

The condition of the standing crops and the prospects of outturn of *rabi* crops were generally satisfactory, except in a few districts where some localized damage to the crops was caused by hailstorms and frost during the season. On the basis of information received so far from the District Officers, the figures of average *anna* condition (expressed as percentage) of the mango and *mahuva* crops for the State are estimated at about 85 and 82 per cent. of the normal respectively.

V—Damage to crops

Reports of localized damage to the standing *rabi* crops by hailstorm were received from a number of districts, the damage being particularly severe in the districts of Saharanpur, Jalaun, Jaunpur, Almora and Azamgarh. Some localized damage to crops by fire was reported from the Allahabad district. According to the reports received from the Entomologist to Government, U. P., some damage to the wheat, barley, gram, *arhar* and peas crops was caused by field rats in several districts. Stray attacks by insect pests on the standing crops were also reported from several districts. Control measures against these field rats and pests were undertaken by the Plant Protection Service, U. P.

VI—Agricultural Stock

The condition of the live-stock was, on the whole, satisfactory although cattle diseases have, as usual, been reported from a number of districts. The figures for the number of seizures, deaths and mortality from infectious cattle diseases during this and the preceding months are presented in the table given below, which has been prepared from the data furnished by the Director of Animal Husbandry and Fisheries,

U. P. It would be seen from this table that, as compared with the previous month, there was a decline of 28.6 per cent. in the total number of seizures and of 38.2 per cent. in the total number of deaths, resulting in a slight decline in mortality from 8 to 7. As regards Anthrax, there was a fall of 75.0 per cent. in the number of seizures and of 76.7 per cent. in the number of deaths, which brought about a decline in mortality from 94 to 87. In the case of Haemorrhagic Septicaemia, there was a decline of 55.3 per cent. in the number of seizures and of 59.5 per cent. in the number of deaths, giving a decline in mortality from 96 to 87. As for Black Quarter, there was a decline of 54.5 per cent. in the number of seizures and of 42.9 per cent. in the number of deaths, but the mortality rose from 80 to 100. There were decreases of 12.2 and 27.4 per cent. respectively in the number of seizures and deaths from Rinderpest and mortality also fell from 72 to 60. As regards Foot and Mouth disease, there was a decline of 28.2 per cent. in the number of seizures but the number of deaths were a little more than double that of the preceding month, resulting in a rise in mortality from 0.22 to 0.67. There were 70 and 50 cases of seizures and deaths respectively from other diseases as against no case of seizure or death during the preceding month.

TABLE—Number of seizures, deaths and mortality from infectious cattle diseases during the months of February and March, 1955.

VII—Pasturage and Fodder

Pasturage and fodder were generally reported to be adequate in all the districts of the State except a few where there was some scarcity of pasturage.

VIII—Health and Labour in Rural Areas

The health of the labouring population engaged in agriculture in rural areas was reported to be generally satisfactory.

Report on the activities of the U. P. Sugar and Power Alcohol Industries: Labour Welfare and Development Fund for the year 1953-54.

Under the Sugar Housing Scheme sponsored by the State Government it was decided to construct some 1,500 houses in the different sugar factories of the State.

During the year under review, 6 more factories started construction work bringing the total no. of

such factories to 37. Out of the remaining factories which could not start construction work, 14 factories had no land. Steps for acquiring land for these factories were taken. Other factories could not start work due to some other administrative difficulties. Six factories had declined to participate in the scheme and it was proposed to redistribute their allotment money to other factories. The progress of construction at different stages was as follows:

During the year construction work on 164 more quarters was started in various sugar factories, bringing the total number of quarters under construction to 740. 176 quarters which were under construction last year had been completed during the year under review, bringing the total no. of quarters completed to 364. Out of the remaining 63 were up to plinth level, 32 up to roofs level but roofs not laid, 72 up to roofs level and all roofs laid, 195 up to all roofs laid and plastering etc., done and 14 were below plinth level.

Payments amounting to Rs.5,40,213-8 were made to a number of sugar factories during the year towards the part payment of the cost of construction work bringing the total payment made so far to Rs.11,82,398-8.

The Executive Engineer continued to visit all the factories as often as necessary, to see that the work was being carried out according to the plans and estimates approved by the Board. He also gave spot advice to the factories as and when necessary, regarding construction work.

The Labour Welfare Commissioner and the Town and Village Planner to Government, U. P., visited different sugar factories from time to time and instructed the owners to expedite construction work. The Provincial Iron and Steel Controller was good enough to issue permits of cement and coal-dust for the construction work.

The Housing Board and the Advisory Committee met twice each during the year and considered various questions raised before them and gave their decision thereon.

In some more factories the quarters completed were occupied by the workers after performing opening ceremony.

Monthly Agricultural Report of Uttar Pradesh for the Month of April, 1955

I—Season

During the first and third weeks of the month under report, there was no rain throughout the State. During the second and fourth weeks, there were light and sporadic showers in about one-third of the districts and no rain in the rest. The total rainfall for the month was in defect of the normal in almost all the districts of the State except a few where it was in excess. Rains during the month were accompanied by hailstorm in the districts of Saharanpur, Bijnor, Aligarh, Mathura, Mainpuri, Etah and Allahabad, but no appreciable damage was caused to the standing crops.

II—Agricultural Operations

Preparation of land for, and sowing of, the sugarcane and *zaid* crops was almost over. Preparation of land for the next *khari* crops was in progress in some districts. Harvesting of *rabi* crops was practically over, but threshing and winnowing of the harvested produce continued. The standing sugarcane and *zaid* crops were irrigated in a large number of districts. Crushing of sugarcane, and its supply to the mills was still continuing in some districts.

III—Standing Crops

and

IV—Prospects of Harvest

The condition of the standing sugarcane and *zaid* crops was reported to be generally satisfactory. In the annexed statement are given the *anna*-conditions of important *rabi* crops, as reported by the District Officers.

V—Damage to crops

Slight localized damage to *rabi* crops by hailstorm was reported from a few districts.

According to the reports received for the month from the Entomologist to Government Uttar Pradesh, field rats caused some localized damage to the sugarcane, wheat and barley crops in several districts. Attack of pyrilla on the sugarcane crop was also reported from a few districts. Control measures against field rats and pyrilla were undertaken by the Plant Protection Service, Uttar Pradesh.

VI—Agricultural Stock

The condition of the livestock was on the whole satisfactory although cattle diseases have, as usual, been reported from a number of districts. The figures for the number of seizures, deaths and mortality from infectious cattle diseases during this and the preceding months are presented in table given below which has been prepared from the data furnished by the Director of Animal Husbandry and Fisheries, Uttar Pradesh. It would appear from this table that the total number of seizures and deaths during the month were 2.8 times and 1.3 times respectively of those in the preceding month causing mortality to decline from 7 to 3. As regards Anthrax, the number of seizures and deaths were 7.2 and 3.6 times respectively of those in the preceding month but mortality

fell from 87 to 43. In the case of Haemorrhagic Septicaemia, there was a decline of 35.4 per cent in the number of seizures and of 26.5 per cent in the number of deaths resulting in a rise in mortality from 87 to 99. As for Blackquarter, the number of seizures and deaths were 2.3 and 2.1 times respectively of those in the preceding month whilst mortality fell from 100 to 93. The number of seizures and deaths from Rinderpest were 2.6 and 2.3 times respectively of those in the previous month, but the mortality declined from 60 to 52. As regards Foot and Mouth disease, whilst the number of seizures were 2.9 times of those in the preceding month, the number of deaths were 24 against 29 in the previous month, which resulted in a decline in mortality from 0.67 to 0.19. There were no cases of seizures or deaths from Other Diseases during this month as against 70 cases of seizures and 50 cases of deaths during the preceding month.

Even then no reply was received from the Sabha nor did any representative present himself at the time of inspection. Thus, it appears that the Sabha has now ceased to exist.

2. And whereas the above Sabha has committed a breach of section 28 of the Indian Trade Unions Act, 1926 (XVI of 1926), read with regulation 17 of the Regulations framed under the said Act by failing to submit to the undersigned the annual return for the year ended with the 31st March 1954 by the prescribed date, viz. 31st July, 1954. A notice under section 10(b) of the said Act was issued to the said Union to show cause, within two months of the service of the notice, why the certificate of its registration should not be cancelled. The period of the notice expired on January 18, 1955. The annual return for the year mentioned above has not been furnished even up to this date.

3. No satisfactory cause having been shown, the certificate of registration of the Zila Chauria Karigar Sabha, Gorakhpur is hereby cancelled under section 10(b) of the Indian Trade Unions Act, 1926.

In future legal action will be taken against the office bearers of the Union under section 31 of the Indian Trade Unions Act, 1926, in the event of recurrence of such a default.

Whereas the Secretary of the Chini Mill Mazdoor Sangh, Deoria, a Trade Union, registered under no. 950 of 1951-52 under the Indian Trade Unions Act, 1926, was asked, *vide* my office letter no. 1277/T-II-1210, dated February 28, 1954 to present himself with all the papers of the Union for inspection in the Union office on March 5, 1954, but the Secretary could not produce any paper of the Union. Thereafter, the Secretary was asked twice to show the Union records in my office but that was of no avail. The Secretary was, thereafter, intimated, *vide* my office registered A. D. letter no. 5894/T-II-1210, dated August 5, 1954, that if he failed to present himself in the office with all the records for inspection within one month, action would be taken to cancel the registration of the Union. Even then no reply was received from the Union, nor did any representative of the Union present himself for inspection. Thus, it appears that the Union has now ceased to exist.

2. And whereas the above Union has committed a breach of section 28, of the Indian Trade Unions Act, 1926 (XVI of 1926), read with regulation 17 of the U. P. Trade Unions Regulations, 1927 by failing to submit to the undersigned its annual return for the year ending 31st March, 1954, by the prescribed date viz. July 31, 1954, a notice under section 10(b) of the said Act, was issued to the said Union to show cause, within two months of the service of the notice, why the certificate of its registration should not be cancelled. The period of the notice expired on February 28, 1955.

The Annual Return for the year mentioned above has not been furnished even up to this date.

3. No satisfactory cause having been shown the certificate of registration of Chini Mill Mazdoor Sangh, Deoria, is hereby cancelled under section 10(b) of the Indian Trade Unions Act, 1926.

4. The President of the Union Sri Vishwa Nath Pandey, and the Secretary Sri Jugal Deo Pandey are also hereby warned that this time only the registration certificate of the Union is cancelled for non-submission of the Return by the prescribed date. In future, legal action will be taken against the office bearers of the Union under section 31 of the Indian Trade Unions Act, 1926, in event of recurrence of such a default.

Whereas the Secretary, Lucknow Motor Drivers' Union, Lucknow, registered under no. 1189 of 1953-54 as a Trade Union, was asked, *vide* my office letter dated June 17, 1954, to present himself with all the necessary papers for inspection in the office of the Regional Conciliation Officer, Lucknow, on June 25, 1954, but neither any reply was received from him nor any representative of the Union presented himself for the said inspection. Thereafter, the Secretary was asked, *vide* my office registered A.D. letter dated July 31, 1954 to present himself with all the relevant records and account books for inspection on August 6, 1954. GOVERNMENT OF UTTAR PRADESH

HOME DEPARTMENT (POLICE-A)

No. 1212/VIII—220-54

Dated Lucknow, May 7, 1955

RESOLUTION

READ :

The Report on the Administration of Police in the State of U. P. for the year 1953.

Observations

I. *General condition*—There was a perceptible improvement in the economic situation brought about by falling prices of cereals and other commodities. The general law and order situation remained satisfactory on the whole except for a few sporadic incidents involving students, a minor communal trouble in Budaun and an attempt to create an agitation among a section of the Kisans in the eastern districts. There was no labour trouble of any significance but wranglings at Kanpur did continue. The elections to local bodies which were held during the year passed off peacefully. Efforts to secure greater co-operation of the public by the police continued and Village Defence Societies helped considerably towards the achievement of this end.

II. *Crime*—Crime showed a slight decrease, there being 63,347 cognizable cases registered during the year as against 65,336 in 1952 and 70,485 in 1951. As a result, the incidence of crime per 10,000 of population came down to 11 as against 12 in 1952. This steady decline under the various categories of crime did not, however, affect dacoities which showed an increase. This is a matter for concern and concerted efforts must be made with public co-operation to check this form of crime. The Police conducted anti-dacoity operations vigorously throughout the year and as a result were able to smash a number of gangs. The most outstanding event of the year was the annihilation of the gang of Charna Mallah after a brave encounter lasting for several hours. The operations against the formidable and desperate gang of Man Singh resulted in the liquidation of some of the followers but the leaders continue to elude the police. It is felt that more vigorous effort will be necessary to put an end to this menace. The pluck, gallantry and devotion to duty shown by members of the force in encounters with desperate criminals in the course of which some members of the force lost their lives or received injuries deserve high appreciation and are worthy of emulation. The increasing co-operation of the people of the rural areas in fighting crime was a heartening feature of the year.

III. *Detection*—There was some improvement in the percentage of convictions as compared to reports and to the cases investigated. An unfortunate feature, however, is the steady decline over the last several years in the percentage of convictions in the number of cases decided in Courts. Government hope that the steps taken to improve the standard of investigation and prosecution of cases in Courts of Law will bring about an improvement in the situation. But it is to be noted that success will be dependent on the degree of public co-operation received by the police.

IV. *Preventive action*—The number of persons sent up both under section 109 and section 110, Code of Criminal Procedure as well as the number bound down was the largest in the last three years. This shows definite improvement.

V. *Criminal Investigation Department*—In spite of very heavy work and numerous difficulties the branch continued to discharge its duties with the utmost efficiency and rightly received public appreciation for its integrity and impartiality. The establishment of an anti-corruption section in the Criminal Investigation Department is a step forward towards the eradication of corruption in the police force.

VI. *Provincial Armed Constabulary*—In conformity with the Government policy to effect economy in public expenditure as far as may be possible the strength of the Provincial Armed Constabulary was further reduced to 54 companies. The valuable work done by the Provincial Armed Constabulary in the Nepal territory against Bhim Dutt and his followers has earned the gratitude and appreciation of the Nepal Government. Inside the State the force continued to be employed on anti-dacoity operations in the Chambal ravines against Man Singh and his gang. The Provincial Armed Constabulary also did considerable useful work in the operations against the Rai Sikh criminals in the Tarai Bhabar area.

VII. *Police Radio Section*—The police net work continued to expand and during the year the total number of radio stations rose to 115. The medium of radio communication was gainfully utilized in connection with the operations in Nepal and in the Chambal ravines and in the Kumbh Mela at Allahabad.

VIII. *Relations with public*—Particular emphasis was laid on this aspect of the working of the police on which depends, to a very large extent, the success of the force. Besides other measures adopted to achieve this end, the Village Defence Societies will, it is hoped go a long way towards improving the relations between the police and the public.

IX. *Discipline*—The total number of persons who were either dismissed or punished otherwise was the highest during the last three years. This is an indication of the fact that the drive for securing a pure and efficient force continued relentlessly with satisfactory results.

X. *Rewards*—Three Sub-Inspectors and one constable were awarded the Police Medal for gallantry while four officers received the Police Medal for long and meritorious services.

XI. *Casualties*—Government note with regret that one Sub-Inspector, one head constable, two constables and three village chaukidars were killed while six Sub-Inspectors, four head constables, 53 constables and six village chaukidars received injuries in the discharge of their duties and wish to place on record their appreciation of the high sense of duty shown by them.

Conclusion—The Governor notes with gratification the progress made by the police and their achievements during the year and hopes that the sense of loyalty and devotion towards duty exhibited by the force as a whole will continue to be their guiding principle in the service of the nation.

Monthly Agricultural Report of Uttar Pradesh for the month of May, 1955

I—Season

During the first and fourth weeks of the month under report there were scanty and scattered showers of rain in about one-third of the districts of the State and no rain in the rest. During the second and third weeks, there were only sporadic showers in a few districts while the large majority of districts remained dry and hot. The total rainfall for the month was in moderate to large defect of the normal in all the districts of the State. The weather remained dry and hot with "loo" and occasional dust-storms during the month.

II—Agricultural Operations

Preparation of land for the next *kharif* crops was in progress in a number of districts and the sowing of early *kharif* crops also commenced. Harvesting of *rabi* crops was over but the threshing and winnowing of the harvested *rabi* crops continued in full swing throughout the State and were almost nearing completion by the end of the month. Harvesting and threshing of the *zaid* crops were also going on in a number of districts. The standing sugarcane and *zaid* crops were being irrigated in a large majority of districts.

III—Standing Crops

and

IV—Prospects of harvest

The condition of the standing sugarcane and *zaid* crops was generally satisfactory. A little damage to *zaid* crops had been caused in the Etah District owing to non-availability of water from canals.

V—Damage to Crops

Damage to harvested crop lying on the threshing floor was caused by hailstorm in certain parts of Meerut District. According to the reports received from the Entomologist to Government, U. P., field rats caused damage to the sugarcane crop in a few districts. Attack of pyrrilla and termites on the sugarcane crop was also reported from several districts. Control measures against these field rats and pests were undertaken by the Plant Protection Service, U. P.

VI—Agricultural Stock

The condition of the livestock was on the whole satisfactory although cattle diseases have, as usual, been reported from a number of districts. The figures for the number of seizures, deaths and mortality from infectious cattle diseases during this and the preceding months are presented in the Table given below, which has been prepared from the data furnished by the Director of Animal Husbandry and Fisheries, U. P. It would appear from this table that as compared with the previous month, there was a decrease of 37.7 per cent. in the total number of seizures and an increase of 39.3 per cent. in the total number of deaths, causing mortality to rise from 3 to 7. As regards Anthrax, there was a decline of 55.7 per cent. in the number of seizures and of 2.0 per cent. in the number of deaths, in consequences of which mortality registered a steep rise from 43 to 96. In the case of Haemorrhagic Septicaemia, there was a decline of 23.8 per cent. and of 39.8 per cent. in the number of seizures and deaths, respectively, with the result that mortality fell from 99 to 78. As for Black Quarter, the number of seizures and deaths were both about 1.9 times

those in the preceding month and mortality also rose from 93 to 96. In the case of Rinderpest, the number of seizures and deaths were both about 1.7 times those of the previous month and mortality recorded a slight rise from 52 to 53. As regards Foot and Mouth disease, whilst there was a decline of 41.5 per cent. in the number of seizures, the number of deaths rose by 4.2 per cent. but mortality rose from 0.19 to 0.35. There were no cases of seizures or deaths from other diseases during this and the preceding months.

TABLE : Number of seizures, deaths and mortality from Infectious Cattle Diseases during the months of April and May, 1955.

VII—Pasturage and Fodder

Pasturage and fodder were reported to be generally adequate in almost all the districts of the State except a few from where scarcity of pasturage was reported.

VIII—Health and Labour in Rural Areas

The health of the labouring population engaged in agriculture in rural areas was reported to be generally satisfactory.

REVENUE (C) DEPARTMENT

No. 2033/IC—478-C-54

July 27, 1955

RESOLUTION

READ :

Reports received from the Land Reforms Commissioner, Uttar Pradesh, on the administration of Government Estates and Stone Mahal, Mirzapur, during the financial year March 31, 1955.

1. *Observations*—The year opened with 551 estates but closed with 541, ten estates, however, ceased to be managed as Government Estates. The major Government Estates are :

(1) Tarai and Bhabar Government Estates, Naini Tal.

(2) Garhwal Bhabar Government Estate, Garhwal.

(3) Dudhi Government Estate, Mirzapur.

(4) Illaqa Kham, Rampur.

(5) Mamanzuri villages of the erstwhile Banaras State.

(6) Stone Mahal, Mirzapur.

2. *Cultivated area*—The total area under cultivation in Government estates during the year under report was 10.13 lakh acres, as compared to 9.90 lakh acres in 1952-53. The increase is mainly due to reclamation of wasteland in Tarai and Bhabar Estates.

3. *Income and expenditure*—The receipts during the year decreased from 91.12 lakhs to 77.71 lakhs. The decrease is mainly due to the following reasons:

(i) 6.61 lakhs remained uncollected in Rampur as crops were damaged by hailstorm.

(ii) The income of Tarai and Bhabar Estates decreased by 6.39 lakhs mainly because of non-payment of 5.44 lakhs by the Indian Wood Products Co., Bareilly, on account of the price of Khair trees sold to the Company.

The expenditure decreased from 24.33 lakhs to 22.79 lakhs. The decrease is mainly due to the following reasons :

(i) During 1952-53, the Executive Engineer, Tarai and Bhabar Government Estates had purchased materials worth over 1 lakh which were not utilized in that year.

(ii) The expenditure on works items decreased by 1 lakh.

(iii) The cost of management in plains districts decreased by 0.83 lakh due to abolition of the management of the estates by the Court of Wards.

4. *Collections*—The collection of the rental demand was 99.31 per cent in Ghazipur, 99.01 per cent in Naini Tal, 96.02 per cent in Banaras and 94.75 per cent in Allahabad.

5. *Public Health*—Public Health was, on the whole, satisfactory. In Tarai and Bhabar Estates, the number of births and deaths was 1,778 and 747, respectively as against 1,959 and 1,165 during the previous year. Next to malaria which has been largely controlled, the Chief Public Health problem of Tarai and Bhabar is water-borne diseases, particularly dysentery and typhoid fevers to which special attention was paid. There was an outbreak of cholera in two villages of tahsil Bazpur, but no death occurred. There were nine seizures with one death from small-pox in Tarai and Bhabar. In Dudhi, there were five deaths from cholera and two from small-pox.

The leper-asylum in Tarai and Bhabar continued to work satisfactorily. The lepers are provided with land for growing vegetables and fruits for themselves.

They were also encouraged to do poultry farming and breeding of goats.

Eye Relief Camps were organized at Haldwani, Ramnagar, Tanakpur and Rudrapur. Arrangements were also made for B. C. G. Vaccination in Tarai and Bhabar Estates.

6. *Education*—In Tarai and Bhabar Estates, the number of schools increased from 194 to 209 and the number of scholars from 5,845 to 6,779. The schools were regularly inspected by the members of the District Inspecting Staff. Scholarships were as usual, granted to deserving scholars. In Dudhi Estates, 20 primary schools with 43 teachers continued to function satisfactorily. Of the six primary schools of Garhwal Bhabar Estate, one has been transferred to the Notified Area Committee, Kotdwara. The remaining five schools functioned satisfactorily.

7. *Co-operation : Co-operative Bank*—(a) The number of Societies affiliated to the Tarai and Bhabar Central Co-operative Bank Ltd., Haldwani, increased from 281 to 285. The reserve and other funds increased by Rs.10,403.

(b) *Co-operative Societies*—The number of Societies in Tarai and Bhabar increased from 248 to 251, and their membership from 4,791 to 5,218.

(c) *Marketing Unions*—With the exception of Haldwani Union, which is at a stand-still, all the Marketing Unions and Sanghs worked satisfactorily. The peasantry is greatly interested in Marketing Unions, and the two Unions at Khatema and Ramnagar are doing excellent work. The supply of milk at Naini Tal, was greatly improved by the Co-operative Milk Union. In Dudhi Estate, 3 Seed Stores, 5 Block Unions and one Central Banking Union worked satisfactorily under the Co-operative Department.

8. *Agriculture*—The agricultural conditions were, on the whole, satisfactory. In Tarai and Bhabar, adequate rainfall yielded good crops, though winter rains were followed by hailstorm which caused damage to Rabi crops in some parts of the Estates. The 12 Seed Stores in Tarai and Bhabar continued to function satisfactorily. The total quantity of seed distributed during the year amounted to 14,029 maunds. Besides this, 2,354 maunds of fertilizers and 669 implements were supplied to the cultivators. The cultivation of Moong, cotton and jute was introduced in Tarai and Bhabar. Moong and cotton have given satisfactory results, while jute cultivation gave considerable difficulty for want of skilled labour. The Rural Development Association, Tarai and Bhabar, continued to function satisfactorily. In Dudhi Estate, rains were scanty, untimely and scattered, and were not conducive to proper development of crops. The irrigated area increased from 810 acres to 945 acres.

9. *Animal Husbandry*—The Tarai and Bhabar Estates continued to maintain four Veterinary Hospitals under the charge of qualified Assistant Surgeons. A part from these, there are seven Cattle Welfare Units working under the Veterinary Stockman. Two Artificial Insemination Centres in Tarai and Bhabar Estates artificially inseminated 209 cows and 354 buffaloes. Seven Cattle Shows were also organized in Tarai and Bhabar during the year under report. In Garhwal Bhabar Estate, the Veterinary Hospital at Kotdwara has been rendering good service. In Dudhi, the Veterinary Hospital continued to function satisfactorily. It has a staff of one Assistant Surgeon, one Compound-

er and two Stockmen. Thirteen thousand, one hundred and twenty-one cases were treated in the hospital as against 4,130 of the previous year. The number of animals castrated was 655 as against 549 of the last year.

10. *Cottage Industries*—In Tarai and Bhabar Estates, fruit-culture, poultry-farming, bee-keeping and wool-spinning and weaving received due attention as cottage industries. The number of improved bee-hives increased from 313 to 359. There is a good field for wood industry at Kotabagh. Steps are being taken to appoint a Weaving Master at Kotabagh Circle.

11. *Development Schemes*—In Tarai and Bhabar Estates, a sum of Rs.1,17,355 was spent on Public Health Scheme (Travelling Compounders), wire-fencing, construction of one tube-well and 2 artesian wells. In addition to this, the following works were carried out in Tarai and Bhabar under the State Five-Year Plan at a cost of Rs.1,44,992 :

- (a) 4½ miles of channels were lined and 5 furlongs were restored ;
- (b) 9 cement concrete wells were constructed ;
- (c) 84 hand-pumps were sunk in Tarai.
- (d) 95 hand-pumps were repaired and refixed ;

In Garhwal Bhabar Estate, a sum of Rs.1,01,018 was spent on the Rigaddi Drinking Water Supply Scheme, which was started two years back. The Scheme could not be completed due to non-availability of parts which had to be requisitioned from foreign countries. In Dudhi Estate, Rs.39,000 was spent on construction of wells under the Five-Year Plan, a sum of Rs.10,000 was given to the District Planning Committee for construction of *bundhis* and an amount of Rs.4,500 was spent on repairs.

12. *Forests*—In Tarai and Bhabar Estates, timber worth Rs.75,557 was supplied from forest free of cost, to the inhabitants of the Estates and 76,539 cattle were allowed to graze free.

13. *Other important activities*—(i) Offices of the Tarai and Bhabar Government Estates have been located at Haldwani permanently.

MONTHLY AGRICULTURAL REPORT OF UTTAR PRADESH FOR THE MONTH OF JUNE 1955

I—Season

During the first week of the month under report there was no rain throughout the State. During the second week there were light showers to moderate rains in all the districts of the State. During the third and fourth weeks, there was heavy rain in some districts, mostly eastern, and moderate rain in the rest owing to the setting in of the monsoons. The total rainfall for the month was in slight to moderate defect of the normal in the western and hilly districts of the State and in moderate to large excess of the normal in the rest. The weather remained partly hot and partly cloudy.

II—Agricultural Operations

Preparation of land for, and sowing of the *kharif* crops were in full swing in a large majority of districts. Harvesting of *zaid* crops was practically over in the State. Irrigation of the standing sugarcane and newly sown *kharif* crops was resorted to in a few districts where there had not been adequate rains.

III—Standing Crops

and

IV—Prospects of Harvest

The condition of the standing sugarcane and early *kharif* crops was generally satisfactory. Though locust swarms visited the Jalaun and Azamgarh districts, no damage was caused to the crops. Heavy rains in the second fortnight of the month were reported to have slightly damaged the standing early *kharif* crops in the Gorakhpur District.

V—Damage to Crops

According to the report received from the Entomologist to Government, Uttar Pradesh, field rats caused localized damage to the sugarcane and tobacco crops in a few districts. Localized attacks of pyrrilla, top-borer and root-borer on the sugarcane crop were also reported from several districts. Control measures against these field rats and pests were undertaken by the Plant Protection Service, Uttar Pradesh.

VI—Agricultural Stock

The condition of the livestock was on the whole satisfactory although cattle diseases have, as usual, been reported from a number of districts. The figures for the number of seizures, deaths and mortality from infectious cattle diseases during this and the preceding months are presented in the table given below, which has been prepared from the data furnished by the Director of Animal Husbandry, and Fisheries, Uttar Pradesh. It would appear from this table that as compared with the previous month, there was a decrease of 29.2 per cent in the total number of seizures and an increase of 69.3 per cent in the total number of deaths causing mortality to rise from 7 to 17. As regards Anthrax, there was a decline of 25.5 per cent

in the number of seizures and of 24.5 per cent in the number of deaths, in consequence of which mortality registered only a slight rise from 96 to 97. In the case of Haemorrhagic Septicaemia, the number of seizures and deaths were respectively 3.9 and 4.2 times those in the previous month and mortality rose from 78 to 84. As regards Black Quarter, there was a decrease of 32.1 per cent in the number of seizures and of 30.9 per cent in the number of deaths whereas mortality recorded only a slight rise from 96 to 98. In the case of Rinderpest, the number of seizures and deaths were respectively 1.5 and 1.8 times those in the previous month with the result that mortality rose from 53 to 65. As for Foot and Mouth disease, both the number of seizures and deaths decreased by 39.1 and 64.0 per cent respectively resulting in the mortality declining from 0.35 to 0.21. There were no cases of seizures or deaths from other diseases during this and the preceding months.

A. N. CHOPRA, Director,

MONTHLY AGRICULTURAL REPORT OF UTTAR PRADESH FOR THE MONTH OF JULY, 1955

I—Season

During the first week of the month under review there were heavy rains in the large majority of districts and moderate rains elsewhere. During the second week there were widespread and heavy rains in many districts and light to moderate rains in the rest. During the third week there were widespread and unusually heavy rains in practically all the eastern districts and light showers to moderate rains in the rest. During the fourth week there were generally light showers to moderate rains in many districts and heavy rains in a few districts. Rains during the last two weeks were generally inadequate in the western districts where more rains were badly needed. The total rainfall for the month was in slight defect of the normal in some districts, mostly western and in slight to very large excess of the normal in the rest. The weather remained cool and cloudy throughout the month. The annexed statement shows the districtwise distribution of the rainfall in inches during the month.

II—Agricultural operations

Sowing of Kharif crops was in progress in the majority of the districts and was practically over by the end of the month except for some late Kharif crops. Transplantation of paddy had also commenced. Preparation of the seed bed for the next Rabi crops started in a few districts. All the agricultural operations were held up in certain parts of some eastern and Oudh districts which were affected by unprecedented floods and excessive rains. The weeding operations of the standing Kharif crops were in progress. Irrigation of the standing Kharif crops, particularly sugarcane, was resorted to in a few western districts.

III—Standing crops

and

IV—Prospects of Harvest

The condition of the standing crops was reported to be generally satisfactory in the majority of the districts. However, owing to excessive rains and floods, extensive and severe damage was caused to the standing crops in the eastern districts particularly in Faizabad, Jaunpur, Gorakhpur, Basti, Azamgarh, Deoria, Sultanpur, Pratapgarh and Allahabad.

V—Damage to crops

Besides the damage noted in the preceding section by heavy rains and floods in the eastern districts the standing Kharif crops in the western districts were adversely affected on account of inadequate rains. According to the report received from the Entomologist to Government, Uttar Pradesh field rats caused damage to the sugarcane, groundnut, jwar, and maize crops in a few districts. Attacks of pyralia, top borer and root borer on the sugarcane crop were reported from several districts. Control measures against these field rats and pests were undertaken by the Plant Protection Service, Uttar Pradesh.

VI—Agricultural Stock

The condition of the livestock was on the whole satisfactory although cattle diseases have, as usual, been reported from a number of districts. The figures for the number of seizures, deaths and mortality from infectious cattle diseases during this and the preceding months are presented in the Table given below, which has been prepared from the data furnished by the Director of Animal Husbandry and Fisheries, Uttar Pradesh. It would appear from this table that as compared with the previous month, there was a decline of 25.4 per cent in the total number of seizures, but the total number of deaths was about 2.8 times that of the previous month, with the result that mortality rose from 17 to 62. As regards Anthrax, the number of seizures and deaths were about 5.4 and 5.6 times respectively of those in the previous month which resulted in the rise of mortality from 9% to 100%. As for Haemorrhagic Septicaemia, the number of seizures and deaths were both practically about 7.8 times those in the preceding month, and mortality recorded only a nominal rise from 84 to 85%. In the case of Blackquarter, the number of seizures and death were both practically about 4.8 times those of the previous month, but mortality remained stationary at 98%. As for Rinderpest, there was a decline of 15.8 per cent in the number of seizures and of 18.0 per cent in the number of deaths and mortality registered a decline from 65 to 63. As regards Foot-and-Mouth disease, there was a decrease of 76.7 per cent in the number of seizures and of 66.7 per cent in the number of deaths, resulting in the rise of mortality from 0.21 to 0.29. As for Other Diseases, the number of the seizures and deaths were 4 and 3 respectively as against no case of seizures or deaths in the previous month.

TABLE—Number of seizures, death and mortality from infectious cattle diseases during the months of June and July, 1955.

VII—Pasturage and Fodder

Pasturage and fodder were reported to be generally adequate in almost all the districts of the State except in the flood affected western districts where scarcity of both these was felt.

P. Trade Unions Regulations, 1947.

Notice under section 10(b) of the Indian Trade Unions Act, 1926, is therefore hereby given to the Meerut Roadways Workers Union, Meerut, Dehra Dun, to show cause to the undersigned on or before the expiry of two months from the date of receipt of this notice, why the certificate of registration granted to it should not be cancelled.

MONTHLY AGRICULTURAL REPORT OF UTTAR PRADESH FOR THE MONTH OF AUGUST, 1955.

I—Season

During the first fortnight of the month under report there were moderate to heavy rains in many districts and light to moderate rains in the rest. During the second fortnight, there were light to moderate rains in the majority of districts and sporadic showers to light rains in the rest. The total rainfall for the month was in slight to large excess of the normal in the majority of districts and in slight to moderate defect of the normal in the rest. The weather remained sultry throughout the month. The annexed statement shows the districtwise distribution of rainfall in inches during the month.

II—Agricultural operations

Preparation of land for the next *rabi* crops continued in the large majority of districts. Sowing of *kharif* crops and transplantation of late paddy remained in full swing in many districts and were practically over by the end of the month. The weeding operations of the standing *kharif* crops continued in certain districts. Harvesting of maize started in a few districts. Due to excessive rains and floods, the agricultural operations were held up in many districts, particularly in eastern U. P.

III—Standing crops and

IV—Prospects of harvest

The condition of the standing crops and their prospects of outturn were reported to be generally satisfactory except in areas which were adversely affected by heavy rains and floods. Severe and extensive damage to the standing crops was caused as a result of floods and water-logging in the low-lying areas of Faizabad, Jaunpur, Gorakhpur, Basti, Azamgarh, Deoria, Sultanpur, Pratapgarh, Allahabad, Banaras, Gonda, Bahraich and Ballia districts. On the other hand, some damage to paddy crop was reported from the districts of Naini Tal, Mainpuri and Moradabad due to scanty rains.

V—Damage to crops

Damage caused to the standing *kharif* crops by floods, water-logging and scarcity of rains has already been described above. According to the report received from the Entomologist to Government, U. P., field rats caused damage to *juar*, maize, paddy, sugarcane and groundnut crops in some districts. Attacks of top shoot borer on sugarcane, of *gundhy* bug on paddy and *sawan* and of *kharif* grass-hoppers on *juar*, *sawan* and sugarcane were reported from several districts. Control measures against these field rats and pests were undertaken by the Plant Protection Service, U. P.

The condition of livestock was on the whole satisfactory, although cattle diseases have, as usual, been reported from a number of districts. The figures for the number of seizures, deaths and mortality from infectious cattle diseases during this and the preceding months are presented in the table given below, which has been prepared from the data furnished by the Director of Animal Husbandry and Fisheries, U. P. It would appear from this table that, as compared with the previous month, the total number of seizures and deaths were 3.1 times and 2.0 times respectively of those in the previous month, resulting in a fall in mortality from 62.4 per cent in the number of seizures and of 88.8 per cent in the number of deaths, resulting in a fall in mortality from 100 to 82. As

for Haemorrhagic Septicaemia, the number of seizures as well as deaths were about twice those in the previous month, in consequence of which mortality remained stationary at 85. As regards Black Quarter, whilst the number of seizures was 1.2 times that in the previous month the number of deaths recorded only a small rise of 4.5 per cent, resulting the mortality registering a decline from 98 to 82. In the case of Rinderpest, both the number of seizures, as well as deaths were about 3.2 times those in the previous month, but mortality declined from 63 to 60. The number of seizures and of deaths from foot-and-mouth disease were respectively 6.1 times and 12 times those in the previous month, but mortality rose from 0.29 to 0.58. As for other diseases, there were no cases of seizures or deaths during this month, as against 4 and 3 respectively in the preceding month.

MONTHLY AGRICULTURAL REPORT OF UTTAR PRADESH FOR THE MONTH OF SEPTEMBER, 1955

I—Season

During the first and third weeks of the month under report, there were light to moderate rains in almost all the districts of the State. During the second and fourth weeks, there were moderate to heavy rains in the large majority of districts and light rains in the rest. The weather remained cool and cloudy throughout. The total rainfall for the month was in slight to large excess of the normal in the majority of the districts and in defect of the normal in the rest. In the annexed statement is given the district-wise distribution of rainfall in inches during the month.

II—Agricultural Operations

Heavy rains during the month generally delayed agricultural operations in the majority of districts. However, the cultivators remained busy in preparing land for the next *rabi* crops. Harvesting of maize, early paddy, and other early *kharif* crops was going on. Sowing of gram and potatoes and picking of cotton started in some areas.

III—Standing Crops

and

IV—Prospects of Harvest

The condition of standing crops and their prospects of outturn were reported to be generally satisfactory except in areas which were adversely affected by excessive rains and floods. Further reports of damage to the standing crops, viz. paddy, sugarcane, *bajra* and pulses by water-logging (due to heavy rains were received from the Muzaffargarh, Meerut, Bulandshahr, Aligarh, Mathura, Agra, Pilibhit, Allahabad, Gorakhpur and Azamgarh districts. However, the condition of the sugarcane and paddy crops in the uplands is reported to be satisfactory in these districts. On the basis of the reports received so far from the District Officers, the average anna condition (expressed as percentage) of the *kharif* crops in the State is roughly estimated at 77 per cent of the normal.

V—Damage to Crops

Damage to the standing *kharif* crops by excessive rains and floods, resulting in water-logging in low-lying areas, has been described above. According to the report for the month under review received from the Entomologist to Government, U. P., field rats caused stray damage to paddy and sugarcane crops in a few districts. Stray attacks of grasshoppers on paddy, cotton and sugarcane, of *gundhy* bug on paddy, of pyrailla on sugarcane, of red cotton bug and cotton leaf roller on cotton, and of termites on groundnut were reported from several districts. Control measures against these field rats and pests were undertaken by the Plant Protection Service, U. P.

VI—Agricultural Stock

The condition of livestock was on the whole satisfactory although cattle diseases have, as usual, been reported from a number of districts. The figures for the number of seizures, deaths and mortality from infectious cattle diseases during this and the preceding months are presented in the Table given below, which has been prepared from the data furnished by the Director of Animal Husbandry and Fisheries, U. P. It would appear from this Table that, as compared with the previous month, the total number of seizures recorded an increase of 17.8 per cent and the total number of deaths a decline of 21.4 per cent resulting in a fall in mortality from 40 to 27. As regards Anthrax, there was an increase of 7.1 per cent in the number of seizures and of 26.1 per cent in the number of deaths, resulting in a rise in mortality from 82 to 97. As for Haemorrhagic Septicaemia, there was a fall of 21.6 per cent in the number of seizures and of 25.3 per cent in the number of deaths, leading to a fall in mortality from 85 to 81. As regards Blackquarter, the number of seizures and deaths declined by 16.6 per cent and 19.5 per cent respectively, resulting in a decline in mortality from 82 to 79. In the case of Rinderpest, there was a decrease of 15.8 per cent in the number of seizures and of 15.0 per cent in the number of deaths, in consequence of which mortality recorded a nominal rise from 60 to 61. As for foot-and-mouth disease, there was an increase of 58.4 per cent in the number of seizures and a decrease of 66.7 per cent in the number of deaths, which led to a decline in mortality from 0.58 to 0.12. There were 17 cases of seizures and deaths from other diseases as against no case of seizure or death in the previous month.

OFFICE OF THE REGISTRAR OF THE TRADE UNIONS.
UTTAR PRADESH

Notice under section 10(b) of the Indian Trade Unions Act, 1926

WHEREAS the Assistant Trade Unions Inspector inspected the Electric Supply Workers Union, Rampur, registered as a Trade Union under no. 942 of 1951-52 on the 8th September, 1955, and his spot enquiries revealed that no subscription has been realized from members for the last two years, the cash-book and proceedings book have been maintained after 1953, and the other records have also not been kept properly. It, therefore, appears that the union has now ceased to exist.

And whereas the union has contravened the provisions of section 28 of the Indian Trade Unions Act, 1926, read with regulation 17 of the U.P. Trade Unions Regulations 1927, by failing to submit its Annual Return for the year 1954-55 up till now which was submitted by July 31, 1955.

Notice under section 10(b) of the Indian Trade Unions Act, 1926, is, therefore, hereby given to Electric Supply Workers Union, Rampur, to show cause to the undersigned within 2 months from the date of the receipt of this notice, why the certificate of registration granted to it should not be cancelled.

WHEREAS the Assistant Trade Unions Inspector inspected the Brass Sheet Mill Workmen's Trade Union, Moradabad, registered as a trade union under no. 1247, of 1953-54, on 18th January, 1955, and his spot enquiries revealed that the Secretary of the union had taken no action to remove the deficiencies pointed out to him during the course of the last inspection of the union on the 27th May, 1954. At the time of the inspection the registration certificate and the copy of the registered constitution of the union were not found with the union. The union had no admission forms filled in by members and it was also noticed that no meeting of the union had been conducted after the 15th December, 1953. No member of the union had paid any subscription for last 9 months in the year 1954-55, and according to registered constitution of the union a person ceases to be a member of the union on his failure in payment of three successive instalments of his subscription. The union has also failed to comply with the statutory formalities for getting its changed address registered. The union was instructed in my office letter dated 9th August, 1954, that if the records of the union were not kept properly and the provisions of its constitution were not complied with the registration of the union shall have to be cancelled but no notice was taken in this behalf. From the aforesaid reasons it was revealed that the union had ceased to exist.

And whereas a Notice under section 10(b) of the Indian Trade Unions Act, 1926, was given to aforesaid union to show cause to the undersigned within 2 months from the date of the receipt of the notice why the certificate of registration granted to it should not be cancelled on the ground that the union had ceased to exist. The period of notice expired on the 21st June, 1955, but no reply was received even after issue of a reminder.

The registration certificate of the Brass Sheet Mill Workmen's Trade Union, Moradabad, is, therefore, hereby cancelled.

WHEREAS the Lord Krishna Sugar Mill Workers' Union, Saharanpur, registered as a Trade Union under no. 449 of the year 1947-48, has committed a breach of section 28 of the Indian Trade Unions Act, 1926 (XVI of 1926), read with regulation 17 of the Regulations under the said Act by failing to submit to the undersigned a correct Annual Return for the year ended with the 31st March, 1955, by the prescribed date, viz. the 31st of July, 1955, notice under section 10(b) of the Indian Trade Unions Act, 1926, is hereby given to the Lord Krishna Sugar Mill Workers' Union Saharanpur, to show cause to the undersigned on or before the expiry of two months from the date of receipt of this notice, why the certificate of registration granted to it should not be cancelled.

WHEREAS the Khandelwal Glass Karmchhari Sangh Sassi, Aligarh, registered as a Trade Union under no. 922 of the year 1950-51, has committed a breach of section 28 of the Indian Trade Unions Act, 1926 (XVI of 1926) read with regulation 17 of the Regulations under the said Act by failing to submit to the undersigned a correct Annual Return for the year ended with the 31st March, 1955, by the prescribed date, viz. the 31st of July, 1955, notice under section 10(b) of the Indian Trade Unions Act, 1926, is hereby given to the Khandelwal Glass Karmchhari Sangh Sassi, Aligarh, to show cause to the undersigned on or before the expiry of two months from the date of receipt of this notice, why the certificate of registration granted to it should not be cancelled.

WHEREAS the Newspapers Ltd. Employees' Union, Allahabad, registered as a Trade Union under no. 1311 of the year 1954-55, has committed a breach of section 28 of the Indian Trade Unions Act, 1926 (XVI of 1926), read with regulation 17 of the Regulations under the said Act by failing to submit to the undersigned a correct Annual Return for the year ended with the 31st March, 1955, by the prescribed date, viz. the 31st of July, 1955, notice under section 10(b) of the Indian Trade Unions Act, 1926, is hereby given to the Newspapers Ltd. OFFICE OF THE REGISTRAR OF TRADE UNIONS, UTTAR PRADESH, KANPUR

[Notice under section 10 (b) of the Indian Trade Unions Act, 1926].

WHEREAS the Municipal Karamchahi Sangh, Lucknow, which is registered as a Trade Union under no. 751 of 1949-50, did not produce its records for inspection by the Trade Unions Inspector who visited the Union's office two times on January 31, 1955, and February 13, 1955, after giving previous notice. The Secretary was asked a third time to present himself in the office of the Regional Conciliation Office, Lucknow, to show the records of the Union on September 5, 1955. The General Secretary Sri Ganga Vishnu presented himself in the Regional Conciliation Office on the above date but he did not bring the Union's Registration Certificate with him. He had neither a certified copy of the Constitution nor the admission forms filled in by its members. The Union had also no cash-book no vouchers and no proceedings book. Only names of 136 ordinary members were written in a register but the names of the honorary members were not written in it, nor any subscription was realized from them. In the last year, subscription had been realized at the rate of Rs.3 per annum instead of the quarterly subscription of annas 4 as provided in the Constitution, without getting any change of rate of subscription registered in my office. This year the subscription had not been realized from the members for five months although the membership of the Union ceases if the subscription falls in arrears for two months after the quarterly due date. From the above facts it appears that the Sangh has ceased to exist.

Therefore, a notice under section 10(b) of the Indian Trade Unions Act, 1926, is given to the aforesaid Union to show cause to the undersigned on or before the expiry of two months from the date of receipt of the notice, why the certificate of registration granted to it shall not be cancelled on the ground that the Union is functioning constitutionally and now it has ceased to exist.

WHEREAS the Tehri-Garhwal Motor Mazdoor Sangh, Rishikesh, Dehra Dun, registered as a Trade Union under no. 776 of the year 1949-50, has committed a breach of section 28 of the Indian Trade Unions Act, 1926 (XVI of 1926), read with regulation 17 of the Regulations under the said Act by failing to submit to the undersigned a correct Annual Return for the year ended with the 31st March, 1955, by the prescribed date, viz. the 31st of July, 1955, notice under section 10(b) of the Indian Trade Unions Act, 1926, is hereby given to the Tehri Garhwal Motor Mazdoor Sangh, Rishikesh, Dehra Dun to show cause to the undersigned on or before the expiry of two months from the date of receipt of this notice, why the certificate of registration granted to it should not be cancelled.

M. C. PANT

MONTHLY AGRICULTURAL REPORT OF UTTAR PRADESH FOR THE MONTH OF OCTOBER, 1955

I—Season

During the first and second weeks of the month under report, there were widespread and heavy rains in a large number of districts of the State, mostly western and central, and light to moderate rains in the rest. There were practically no rains during the third and fourth weeks of the month throughout the State except for light showers in some districts during the third week. The weather during the second fortnight became cool and clear. The total rainfall for the month was in slight to large excess of the normal in almost all the districts except the three eastern districts of Banaras, Mirzapur and Jampur, where it was in defect.

II—Agricultural Operations

The untimely and heavy rains during the first fortnight of the month generally delayed agricultural operations in the majority of the districts. However, in areas not affected by floods and water-logging, preparation of land for the next *rabi* crops was going on. In certain areas, sowing of *rabi* crops, particularly potatoes, peas and gram, had commenced. Whilst harvesting of early paddy was almost over, that of *juar* and *bajra* had started. Picking of cotton was going on in some cotton-growing areas. Harvesting of *mandua*, maize and pulses was being done in the hilly districts.

III—Standing Crops

and

IV—Prospects of Harvest

The condition of the standing crops was reported to be fairly satisfactory throughout the State except in the areas adversely affected by excessive rains, floods and water-logging. The sugarcane and late paddy crops were, on the whole, doing well. The cotton, maize, *juar*, *bajra*, early paddy and fodder crops sustained considerable damage as a result of excessive rains, particularly in the low-lying areas. On the basis of the reports received so far from the District Agricultural Officers of the important cotton-growing districts, the average anna condition (expressed as percentage) of the cotton crop for the State is roughly estimated at 46 per cent of the normal.

V—Damage to Crops

Heavy rains and floods during the first fortnight of the month caused considerable damage to the standing crops in several districts, particularly in the western and central parts of the State. During the second fortnight, some damage to the standing crops by rain and hailstorm was reported from the hilly tracts of the Dehra Dun District. The *kharij* crops also sustained some damage by rains in the Hamirpur District.

In accordance with the report received from the Entomologist to Government, U. P., stray reports of damage to the paddy and *urd* crops by field rats

were received from Dehra Dun District. The damage to *gundhi* bug of cotton leaf groundnut were not measures undertaken by

were received from the Azamgarh, Saharanpur, Gorakhpur, Dehra Dun and Lucknow districts. Stray attacks of *gundhi* bug on paddy, of pyrrilla on sugarcane, of cotton leaf roller on cotton and of termites on groundnut were reported from several districts. Control measures against these field rats and pests were undertaken by the Plant Protection Service, U. P.

VI—Agricultural Stock

The condition of the livestock was, on the whole, satisfactory although cattle diseases have, as usual, been reported from a number of districts. The figures for the number of seizures, deaths and mortality from infectious cattle diseases during this and the preceding months are presented in the table given below, which has been prepared from the data furnished by the Director of Animal Husbandry and Fisheries, Uttar Pradesh. It would appear from this table that, as compared with the previous month, the total number of seizures and deaths recorded a decline of 61.9 per cent. and 65.8 per cent. respectively, resulting in a slight fall in mortality from 27 to 24. As regards Anthrax, there were increases of 93.3 per cent. and 93.1 per cent. respectively in the number of seizures and deaths, in consequence of which the mortality remained stationary at 97. As for Haemorrhagic Septicaemia, there was a fall of 62.8 per cent. in the number of seizures and of 72.7 per cent. in the number of deaths, leading to a fall in mortality from 81 to 59. As regards Black Quarter, there was a fall of 85.5 per cent. in the number of seizures and a fall of 81.6 per cent. in the number of deaths, resulting in a rise in mortality from 79 to 100. In regard to Rinderpest, there was a decline of 55.1 per cent. and 55.6 per cent. respectively in the number of seizures and deaths, but mortality registered a nominal fall from 61 to 60. As regards Foot-and-mouth disease, the number of seizures and deaths recorded decreases of 63.3 per cent. and 75.0 per cent. respectively, which led to a fall in mortality from 0.12 to 0.08. As for other diseases, the number of seizures and deaths recorded increases of 70.6 per cent. and 5.9 per cent. respectively, but mortality fell from 100 to 62.

VII—Pasturage and Fodder

Pasturage and fodder were reported to be generally adequate except in the flood-affected and water-logged areas, where scarcity of both was felt.

VIII—Health and Labour in Rural Areas

The health of the labouring population engaged in agriculture in rural areas was reported to be generally satisfactory except in the districts affected by excessive rains and floods.

OFFICE OF THE REGISTRAR OF TRADE UNIONS.
UTTAR PRADESH. KANPUR

[Notice under section 10(b) of the Indian Trade Unions Act, 1926]

WHEREAS the Secretary of the Kanpur Loha Mills Karamchhari Union, Kanpur, registered as a trade union under no. 372 of 1947-48, was asked, vide this office letter, dated the 2nd February, 1954, to get the change in the address of the Union registered as required under section 12 of the Indian Trade Unions Act, 1926, read with Regulations 10 and 11 of the U. P. Trade Unions Regulations, 1927, and to submit some information with regard to its Executive Committee for the year 1953-54; and whereas no reply was received to the letter under reference in spite of reminders, dated the 20th April, 1954, and 24th July, 1954, thereafter the Union was once more reminded through a registered Acknowledgment Due letter whereupon the Joint Secretary of the Union presented himself in this office and gave a written assurance that a reply to the letter under reference shall positively be sent up to October, 1954, but the change in address has not, so far, been got registered. Thus the Union has committed a breach of section 12 of the Indian Trade Unions Act, 1926 read with Regulations 10 and 11 of the U. P. Trade Unions Regulations, 1927.

A notice under section 10(b) of Indian Trade Unions Act, 1926, is therefore, hereby given to the Kanpur Loha Mills Karamchhari Union, Kanpur to show cause to the undersigned, within two months after the receipt of the notice, why the certificate of registration granted to it should not be cancelled.

WHEREAS the Siswa Bazar Biri Mazdoor Union, Gorakhpur registered as a Trade Union under no. 1240 of the year 1953-54 has committed a breach of section 28 of the Indian Trade Unions Act, 1926 (XVI of 1926) read with Regulation 17 of the Regulations

under the said Act by failing to submit to the undersigned a correct Annual Return for the year ended with the 31st March, 1955, by the prescribed date, viz. the 31st of July, 1955, notice under section 10(b) of the Indian Trade Unions Act, 1926 is hereby given to the Siswa Bazar Biri Mazdoor Union, Gorakhpur to show cause to the undersigned on or before the expiry of two months from the date of receipt of this notice, why the certificate of registration granted to it should not be cancelled.

WHEREAS on an inspection of records of the Suti Mill Mazdoor Sabha, Kanpur, which is registered as a Trade Union under no. 1321 of the year 1954-55 by the Trade Unions Inspector, it was noticed that no subscription had been realised from several honorary members of the Sabha and no admission form had been got filled up by the members;

AND whereas according to article 17(a) of the registered constitution of the Sabha, the election of the General council and the Executive Committee ought to have been started from July 1, 1955 and finished by the end of August, 1955, but the election has not been conducted up to date.

Now therefore, it appears that the abovenamed Sabha is not working according to its constitution and has ceased to exist;

Notice, under section 10(b) of the Indian Trade Unions Act, 1926, is therefore, hereby given to the Suti Mill Mazdoor Sabha, Kanpur to show cause to the undersigned within two months from the date of the receipt of this notice, why the certificate of registration granted to it should not be cancelled.

- (iii) Report for 1953-54 by the Director Consolidation of Holdings on :
 - (a) Consolidations of Holdings.

I. Observations—Rainfall—1. Except for some light showers here and there the months from October to November, 1953, were rainless. The winter rain (from December 1953 to March, 1954), was on the whole satisfactory throughout the State, except in the districts of Mirzapur, Ballia, Gorakhpur, Deoria, Jaunpur and Pratapgarh where it was slightly below normal. It was, however, accompanied by severe hailstorms, the worst affected districts being Banaras, Bijnor and Jhansi. The usual dry months of April and May remained rainless. Rainfall during June all over the State was in large deficiency being about 55 per cent below normal. The regular monsoon broke this year in the second week of July, but the rainfall was neither uniform nor consistent nor evenly distributed throughout the State ; while it was deficient in some parts of the western districts, it was wide-spread and heavy in the eastern districts, swelled by a ceaseless down-pour in the last week of July and in the month of August the rivers Ghaghra, Rapti, Ban Ganga, Kauna, Rohni, Bari-Gandak, etc. swept over a wide tract causing wide-spread damage to

crops and house property in the eastern parts of the State, particularly in the districts of Deoria, Gorakhpur, Basti, Azamgarh, Kheri, Bara Banki, Sitapur, Bahraich and Jhansi. During September there were light to moderate rains in a large number of districts and heavy rains in a few districts, particularly in the eastern parts of the State.

2. **Cultivated and Irrigated Areas**—Due to mass resignations tendered by patwaris throughout the State, regular Kharif, (Rabi and Zaid) partals could not be carried out during the year under note, viz. 1360 Fasli, hence the statistics relating to cultivated and irrigated areas could not be collected by the District authorities.

3. **Natural Calamities and Measures undertaken to Relieve the Distress**—(A) *Hailstorm*—There were good winter rains in the beginning of the year 1954 throughout the State which proved beneficial to standing crops. At a few places, however, showers of rain were unfortunately accompanied by hailstorms. The worst affected districts in this respect were Bijnor, Banaras, Jhansi, Saharanpur and Azamgarh.

(B) *Floods*—The monsoon this year started rather late. As already stated earlier, several rivers in the eastern part of the State, viz. Ghagra, Rapti, Banganga, Kauma, Rohin, Bari Gandak, etc. overflowed their banks causing widespread damage to crops and house properties in the eastern parts of the State, particularly in the districts of Deoria, Gorakhpur, Basti, Gonda, Azamgarh, Kheri, Bara Banki, Sitapur, Bahraich and Jhansi. Though floods are an annual phenomenon in these parts of the State and people are not unaccustomed to them, the abnormal feature of the floods during 1954 was that almost all the main rivers swelled suddenly after the outbreak of monsoon. The protective embankments failed in several places to resist the onrush of flood waters giving way, allowing the water to spread far and wide.

(C) *Drought*—Extensive areas in this State were severely affected by drought particularly in the districts of Mirzapur, Banaras, and parts of district Jaunpur. In some districts while parts suffered from floods due to abnormally heavy rains up the streams, the uplands suffered from drought. Due to partial failure of crops scarcity conditions also appeared in some areas of the hill districts of Almora, Garhwal and Tehri-Garhwal.

4. **Relief**—To combat these calamities, the State Government sanctioned the following relief in the shape of gratuitous relief, *takavi*, remissions and suspensions in rent and revenue :

(a) *Gratuitous Relief* :

			Rs.
(1) To hailstricken people	40,500
(2) To flood-stricken people	4,97,500
(3) To drought-stricken people	1,09,200

(b) *Takavi* :

(1) To flood-stricken people	50,00,000
------------------------------	----	----	-----------

Besides the above relief, the State Government also sanctioned a sum of Rs.20,43,000 and Rs.3,94,000 respectively for starting test and relief works in flood and drought affected areas of the State.

(c) *Remissions and suspensions* :

The State Government also sanctioned relief in the shape of of remissions and suspensions of land revenue as follows :

			Kharif 1361 F	Rabi 1361 F
		Rs.	Rs.	
Remissions	33,41,938	14,64,748
Suspensions	10,75,065	3,218

6. **Locust**—Besides the above calamities, some loss to the crops was also caused on account of locust visitations which fortunately were not on a mass scale. On account of the timely action by the plant protection and revenue staff, however, the loss to the standing crops was to extent of Rs.35,000 only excluding the loss caused to trees on account of defoliation.

5. **Relief on account of deposit of sand**—A sum of Rs.8,360 was sanctioned as remission in Land Revenue on account of deposit of sand during Kharif 1361F in Allahabad District.

7. **Land Reforms**—(a) *Areas to which the Uttar Pradesh Zamindari Abolition and Land Reforms Act was applied and enforced during the Revenue Year 1953-54*—During the year under report the provisions of the Act with suitable modifications were extended to the following areas with effect from July 1, 1954:

(1) Government estates in the enclaves absorbed in Uttar Pradesh under the Absorption of Enclaves Order 1950, in the districts of Agra, Mathura, Jhansi, Jalaun, Banda, Hamirpur, and Allahabad.

(2) Government estates in the erstwhile Banaras State.

(3) Directly managed Government estates in the portion of district Mirzapur lying south of the Kampur Range.

(4) Estates in the erstwhile Rampur State excluding estates owned by the State Government and the land allotted to His Highness the Nawab of Rampur under article 4 of the agreement between the Governor General and the Nawab of Rampur. But further action under the Act was withheld under the orders of the High Court or Supreme Court pending decision of the writ application filed before them by the *Patteldars* and *Thekedars* of Rampur.

2. The provisions of the Act have not been extended to the districts of Almora, Garhwal and Tehri-Garhwal, the hill *pattis* of Naini Tal, the Terai and Bhabar Government estates, the estates owned by the Central Government, State Government or any local authority, the areas held or occupied for any public purpose or work of public utility; Government estate in district Rampur and Pargana Jaunsar Bawar of district Dehra Dun.

8. **Working of Land Management Committees**—*Formation of Gaon Samajes, Setting up of Land Management Committees and Steps taken for their Training*—Gaon Samajes and their executives, *viz.* the Land Management Committees had already been formed in the previous year and had started functioning. In order that they should become fully conversant with their functions and duties, intensive training of Land Management Committees was conducted through the agency of Revenue Officers touring during the cold weather of 1953-54. Each tahsil was sub-divided into 3 parts and one part was entrusted to each of the touring Officer, *viz.* the Sub-Divisional Officer, the Tahsildar and the Naib-Tahsildar. On an average, 15 centres were selected at each tahsil at which the training was imparted, and 5 of these were to be visited in the course of the tour by each touring officer. Lekhpals were required to intimate the dates of the training to the Chairman of the Land Management Committees. As a result of total of 3,580 centres were fixed for training, the training was imparted at 3,549 centres and besides members, 41,693 Chairmen were present at the training.

(b) *Integration of Villages*—In order to reduce the number of Gaon Samajes it was decided to intergrate villages in such a way that each combination constituted a compact block, the maximum population of which did not exceed on the average, 1,000 souls, and the maximum area on the average did not exceed 1,500 acres. Villages having a population of 250 souls or less were to be integrated with larger villages. The wishes of the people were duly taken into account. Proposals in this respect were received from most of the districts during the year. There would be 66,394 Gaon Samajes instead of 90,427 as in the year under report.

(c) *Preparation of Registers to be Maintained by Gaon Samajes*—The Lekhpal continued to be the Secretary of the Land Management Committee. It was found that uniformity in the maintenance of the register

of property of Gaon Samajes had not been observed. It was, therefore decided to provide registers (the cost of which would be borne by Land Management Committee) for entry of particulars of their property as well as changes, if any.

(d) *Vesting of Hats, Bazars, Melas, Tanks and Ponds, etc.*—Hats, bazars and melas having an annual income of Rs.2,000 or more and which were not held oftener than twice a year were handed over to districts Boards for management. On the other hand the hats, bazars and melas having an annual income below Rs.2,000 or Rs.2,000 or more but which were held more than twice a year were vested in the Gaon Samajes for management. During the year under report, hats, bazars and melas in 21 more districts of the State were vested in Gaon Samajes and the district Boards.

(e) *Trees and Abadi Sites*—Both trees as well as Abadi sites had already vested in Gaon Samajes before the commencement of the year.

(f) *Progress in the demarcation of waste lands and forests*—Out of a total area of 10,37,871 acres of forests and 12,14,435 acres of waste land vested in the Forest Department 6,27,519 acres were demarcated in 24 districts during the year under report.

(g) *Vesting of Roads and Pathways*—Under notification no. 21/I-A-1421-52, dated January 9, 1954, all pathways (including Kachcha roads) below 5 miles in length were vested in the Gaon Samajes with the exception of a few which were not vested and were proposed to be handed over to the Local Bodies for maintenance.

(h) *Vesting of Wells, Tanks, Fisheries and Water Channels*—Vesting of these had taken place in the previous year. During the year under report no tanks were handed over to the Fisheries or the Animal Husbandry Department for maintenance and management.

(i) *Vesting of Private Ferries*—All private ferries yielding an annual income of less than Rs.2,000 except those which have been made over to the Forest Department, were vested in the Gaon Samajes. Private ferries yielding an annual income of Rs.2,000 or over were made over to the District Boards for management.

(j) *Vesting in the Urban Local Authorities*—Government, by the issue of a notification under section 117-A of the U. P. Zamindari Abolition and Land Reforms Act, 1950, vested in the Municipal Boards, Town Areas and Notified Areas, for the purpose of management and settlement, the land and other properties of the erstwhile zamindars, falling in villages lying wholly or partly within the limits of these urban local authorities.

(k) *Planned Utilization of Land*—With a view not to deprive the village communities of the natural benefits they are entitled to receive from the common property in the village, it was decided that in villages in which the uncultivated area was 10 per cent or less of the total area of the village, the entire uncultivated area should be reserved for planned use, i.e. for fuel plantation, fruit orchards pastures, compost-pits, etc. and the Land Management Committee should in no circumstances let out the same. Where, however, the uncultivated land in a village exceeds 10 per cent of the total area of the village only that much of the uncultivated land which is in excess of the 10 per cent of the total area of village and is cultivable or capable of cultivation can be let out by the Land Management Committee and the rest was to be utilized for common purposes. No limitation about the planned use of land was, however, imposed in those parts of the Jhansi Division and the portion of Mirzapur District, south of Kaimur Range, where *Harteta* System of cultivation is in force.

Demarcation of land for planned use was, until the end of the year, completed in a total of 59,149 villages in the State. The total uncultivated area of these villages was 85,77,025 acres. Out of this 6,86,305 acres were included in *abadi* 1,77,142 in cremation or burial grounds, 55,978 in threshing floors, 3,85,757 in roads and pathways and 13,41,976 in ponds and tanks. The uncultivated areas available for planned use and lettings was thus 59,29,867 acres. Out of this 27,15,040 acres have been reserved for planned use and the area now left for setting is 132,14,827 acres.

9. Progress in the preparation of Zamindari Abolition Compensation Statements and payment of Compensation—(i) There were 2,77,705 *mahals* (as against 2,76,529 *mahals* reported in the previous year, the increase being due mainly to the application of the Zamindari Abolition and Land Reforms Act, 1950, to some more areas) for which draft compensation assessment rolls were to be prepared and released for objections.

(ii) Draft rolls numbering 17,40,352 in respect of 52,396 *mahals* were prepared and released for objections during the year under report. The progressive total of draft rolls released for objections and of *mahals* to which they pertained was 67,45,627 and 2,76,774 respectively.

(iii) The provisional compensation in respect of 17,40,352 rolls aforesaid was approximately Rs.12.98, crores which brings the progressive total to Rs.68.43 crores.

(iv) During the year under report the work relating to finalization of the draft rolls was commenced and out of the aforesaid draft rolls, the number of the rolls finalized after hearing and deciding the objection was 44,87,181.

(v) Payment of compensation in cash.

(1) Interim compensation—During the year under report—

(i) 1,57,624 applications were received.

(ii) 1,87,358 applications (including some pending applications of the previous year) were disposed of; and

(iii) the amount paid was Rs.2,81,24,184.

The progressive totals in respect of the above three items come to 2,84,492 and 2,71,368 and Rs.4.39 crores approximately respectively.

(2) Final compensation in cash, i.e. amounts of compensation not covered by bonds—payment of final compensation as a result of finalization of draft rolls was commenced from February 1, 1954. The amount of compensation paid in cash, as the same was not covered by bonds, during the year under report was Rs.1,18,28,314.

(vi) Issue Z. A. C. Bonds by the Public Debt Office, Lucknow. An important event of the year under report was the opening of a Public Debt Office of the Reserve Bank of India at Lucknow on March 17, 1954. By the end of the year in question the Public Debt Office issued 1,14,815 pieces of bonds of different denominations worth Rs.4,37,47,550.

(vii) Distribution of bonds in the districts—Out of the bonds aforesaid issued by the Public Debt Office 86,572 pieces of bonds Rs.3,66,68,900 were received in the districts out of which 29,601 pieces worth Rs.1,68,33,100 were distributed to the ex-intermediaries.

In the year under report the scale for the payment of interim annuities was raised from 2/3rd of the net assets to 3/4th of the same in respect of Waqfs, trusts and endowments for religious and charitable purposes. Interim annuities were formerly paid in one instalment which arrangement was found to be inconvenient. It was, therefore, decided to pay interim annuities in two instalments payable on the 1st of January and 1st of July. During the year under report a sum of Rs.27,96,786 was paid in cash as interim annuity. The total amount of annuity paid up to the end of the year under report was Rs.36,71,890.

10. Consolidation of Holdings—The Scheme of Consolidation was started in two tahsils—Kairana and Musafirkhana of district Muzaffarnagar and Sultanpur respectively with effect from April 1, 1954. The total cultivated area of tahsil Kairana is 1,78,342 acres and that of tahsil Musafirkhana 1,09,301 acres. The total number of villages under consolidation operations in tahsil Kairana is 223 and that in Musafirkhana 300. The Total number of plots in these two tahsils is 3,01,745 and 3,92,262 respectively.

The Scheme was hailed enthusiastically by the cultivators in Muzaffarnagar district. However, in district Sultanpur there was

slight opposition in the beginning but later on the cultivators extended their full co-operation. In the period of six months (out of which four were monsoon months) available during the year under report the bulk of the mistakes in the land records were removed.

11. Holdings Area—On account of the non-preparation of *Khatanis* for 1361 *Fasli*, the position relating to the Holdings Statistics remained the same as last year.

12. Land Records—Consequent on mass resignation of Patwaris and appointment of substitutes in their place the percentage of qualified Lekhpals fell considerably. As trained candidates came out of the Lekhpal Schools, there was slight improvement and the percentage of qualified hands rose from 37.4 in the preceding year to 40.9 in the year under report. The percentage of resident Lekhpals rose from 21.8 in the preceding year to 34.6 during the year under report. The percentage of non-resident Lekhpals fell from 77.3 to 64.1 while the percentage of Lekhpals exempted from the obligation of residence was 1.3 as against 0.9 in the preceding year.

2. There were 10 Lekhpal Schools in the State during the year under report. The number of regular candidates who appeared at the Final Lekhpal School Examination held in 1954 was 427 as against 877 in the preceding year and the percentage of passed candidates this year was 62.7 as against 86.2 in the preceding year. The number of failed candidates who applied for re-examination of answer-books was 31. Answer books were scrutinized by the Assistant Director of Land Records but no candidate passed as a result of the re-examination. The reasons for low admissions to the Lekhpal Schools is in the main attributable to the appointment of a number of persons as Lekhpals in the emergency created by the mass resignations of Patwaris who would otherwise have joined the schools.

3. There was an acute shortage of trained Supervisor Kanungos, on account of large number of deputation. To meet this shortage, 42 outside candidates were selected by means of a competitive examination conducted by the Public Service Commission and 40 Lekhpals were admitted to the Kanungo Training School, Hardoi. Out of these, 41 outsiders and 39 Lekhpals passed the final examination. One outside candidate failed while one Lekhpal candidate could not take up the examination on account of an accident.

4. The village maps can at best be said to be generally in a satisfactory condition except in the permanently settled tracts and areas subjected to numerous changes on account of various Planning Schemes, gifts of land under the Bhoodan Yagana Act, and new land having been brought under cultivation. Action for the replacement of unserviceable maps, where necessary, was taken.

5. The land records work which has been deteriorating in the past years on account of continued attendance of Patwaris at tahsil headquarters in connection with the preparation of Zamindari Abolition Compensation statements and the employment of untrained and inexperienced Lekhpals in the vacancy caused by the resignation of Patwaris can show improvement only if Lekhpals and Supervisor Kanungos are not saddled with extra duties for a series of years. For the first time the work was done according to the programme in the year under report. A State-wide Correction Drive was launched as a result of which a very large number of errors and omissions and disputed entries were corrected. The number of mistakes detected was 29 lakhs (round) and those corrected within the year were 8 lakhs (round). In furtherance of this object, a concerted drive for the verification of *khatanis* was again launched along with the Kharif partial of 1362 F. This drive proved effective in improving the records.

6. The rules in Parts III to X of the Land Records Manual have been sanctioned and sent to the press for printing and distribution. The service rules of the Land Records Staff are under consideration and will be sanctioned shortly.

7. The Assistant Director of Land Records toured extensively and made useful suggestions.

13. Machinery for the collection of Government Dues—The Seasonal Land Revenue Scheme was replaced by the Scheme of Integrated Collections with effect from Kharif 1361F. Under the Integrated Collection Scheme all the different agencies for collection of land

revenue, irrigation dues, *takani*, etc. have been integrated into one and more than Rs. 27 crores had to be collected during the year under report on account of the demand for land revenue and canal dues only. In addition, the staff under the Scheme had to collect more than a crore of rupees of *takani* dues, arrears of central income tax, central and State excise dues, etc. The cost of collection through the Integrated Collection Scheme works out at 4.6 per cent of the demand as against 5.5 per cent under the Land Revenue Collection Scheme. It was, therefore, possible to effect not only substantial economy under the Integrated Scheme but it also provided employment to the staff for all the year round.

14. **Gross Demand**—(A) *Land Revenue*.—The gross demand of land revenue for the year under report both for Zamindari Abolition and non-Zamindari Abolition areas, was Rs. 20.78 crores as against Rs. 19.18 crores of the previous year. The reasons for the increase in the gross demand of land revenue were, firstly, the assessment of land revenue on the erstwhile revenue free holdings; secondly the determination of land revenue in respect of areas in enclaves; south of the Kaimur Range, and erstwhile Banaras State, and thirdly merger of local rate in land revenue.

Out of the total demand of Rs. 20.78 crores, Rs. 20.31 crores was the Gross Demand in respect of the Zamindari Abolition area and Rs. 47.30 lakhs in respect of the non-Zamindari Abolition areas. The total collections during the year amounted to Rs. 19.66 crores of which Rs. 19.26 crores was towards the demand of Zamindari Abolition area and Rs. 39.89 lakhs towards the demand of non-Zamindari Abolition area. After deducting from the total gross demand of Rs. 20.78 crores the nominal and irrecoverable dues, the net land revenue demand for the year under report was 20.27 crores out of which Rs. 19.66 crores were collected. The percentage of collection to demand thus works out at 97 as against 97.4 in the previous year.

The rental demand payable by Asamis to Gaon Samajes in Zamindari Abolition area for the year under report was 6.86 lakhs as against 6.24 lakhs in the previous years. The total rental demand payable by the tenants in the non-Zamindari Abolition area amounted to Rs. 101.72 lakhs, i.e. equal to the demand in the preceding year.

With a view to enabling the collectors to charge as many L. M. C.'s as are willing and fit to shoulder the responsibility of collecting land revenue, Government have with effect from April, 1954, delegated to all Collectors in the State to charge a L. M. C. with the duty of collecting and realising land revenue under sub-section (1) of section 276 of the Uttar Pradesh Zamindari Abolition and Land Reforms Act, 1950. As a result of this, 124 L. M. C.'s were authorized to make collections in their respective areas in the State, during the years under report. The demand expected to be collected by these L. M. C.'s was Rs. 6,28,819 and the collections actually made by them amounted to Rs. 4,28,026. The Gaon Sabhas were entitled to a commission at the rate of 6½ per cent of the total collections made by them.

Correction of mistakes—In all 1,73,448 mistakes were discovered in Jamabandis during collections in the year ending September 30, 1954. Out of the said number of mistakes, 1,36,911 mistakes were rectified during the year under report leaving a balance of 36,537 mistakes at the end of the year.

(B) *Canal Dues*—The current demand on account of occupiers rate including previous years arrears amounting to Rs. 5.11 lakhs increased from Rs. 581.04 lakhs in the previous year to 762.16 lakhs. The net demand recoverable after accounting for nominal and irrecoverable balances stood at Rs. 757.04 lakhs out of which Rs. 751.84 lakhs was collected leaving a balance of Rs. 5.20 lakhs only at the close of the year.

The demand on account of owners rate increased from Rs. 2,389 in the previous year to Rs. 12,155 in the year under note. Excluding a sum of Rs. 1,699 as nominal, the net recoverable demand came to Rs. 10,486 out of which a sum of Rs. 10,425 was collected leaving a sum of Rs. 61 uncollected at the close of the year.

(C) *Takavi*—A sum of Rs. 155.57 lakhs was advanced as *takavi* under both the Acts (Act XIX of 1883 and Act XII of 1884), as

against Rs. 115.68 lakhs in the previous year. A sum of Rs. 138.46 lakhs fell due for collection during the year out of which a sum of Rs. 30.31 lakhs was suspended and Rs. 40,573 remitted. The net demand amounted to Rs. 107.75 lakhs out of which Rs. 80.72 lakhs were collected. The collection worked out at 74.8 per cent against 83.2 per cent. in the previous year. The decline in the percentage of collection was partly due to the fact that the outstanding instalment relating to pre-vesting period against ex-intermediaries were pending adjustment against the compensation and partly to the difficulties experienced in the eastern districts, which are every year visited by floods and drought.

(D) *Malikana*—After the abolition of Zamindari, Malikana is now collected in the non-Zamindari Abolition area only. The total Malikana demand stood at Rs. 29,617 which included Rs. 28,144 as arrears of the previous year and Rs. 1,473 as current demand. Of the current demand a sum of Rs. 1,412 has been collected leaving a balance of Rs. 61 only while the whole of the amount of arrears relating to 1359 F. is pending adjustment against the compensation payable to ex-intermediaries.

15. **Coercive Processes**—Coercive processes were issued for the collection of 5 per cent of the total demand as in the previous year. The number of processes issued showed an all-round increase of 31,296 over last year's. The writs of demand increased from 3,247 to 4,778, citations to appear from 18,772 to 35,556, warrants of arrests from 43,431 to 52,242, attachment of movable property from 18,359 to 22,382 and attachment of immovable property from 28 to 125. The number of persons actually detained was 4,695 as against 1,868 in the last year. There were 8 cases as against 4 in the previous year in which sale of immovable property took place. Out of 88 cases of attachment of holding, sales took place only in 11 cases.

16. **Working of Agricultural Income Tax Act**—(a) This is the seventh year of the working of the U. P. Agricultural Income Tax Act, 1948 (Act III of 1949). The Act was enforced in the merged State of Tehri-Garhwal from July 1, 1954, and it now stands applied to the whole of Uttar Pradesh. There was no change in the set up.

(b) After the coming into force of the U. P. Agricultural Income Tax (Amendment) Act, 1953, it was felt that some more changes were necessary in order to make the Act more convenient to the people concerned and to avoid unnecessary loss of income. The Act was, accordingly amended further by the U. P. Agricultural Income Tax (Amendment) Act, 1954, which came into force from July 1, 1954. It has raised the exemption limit from Rs. 3,000 to Rs. 4,200 and has abolished the super-tax and the different rates of taxes for companies and individuals. The Act also gives an option to the owners of orchards and grove-holders to get their income assessed either under section 6 (2) (a) or 6 (2) and empowers the Land Reforms Commissioner to fix suitable multiples for computing the income from groves and orchards and also for the land newly brought under cultivation.

(c) Notices for the assessment of tax relating to 1360 F were issued in 32,133 cases and the number of assessees was 13,054. The total tax assessed and collected for the various Fasli years has been as follows :

Fasli year	Assessment	Net collection	Percentage of Collection
1355 ..	1,00,85,292	1,07,80,280	About 100 per cent.
1356 ..	1,16,10,869	1,10,82,365	Ditto.
1357 ..	1,10,37,970	1,00,27,383	Ditto.
1358 ..	1,20,84,690	1,07,50,826	
1359 ..	1,33,84,166	64,43,152	48 per cent.
1360 ..	74,97,125	37,28,970	40 per cent.

The main reason for low collection of tax pertain to 1359 F. and 1360 F is that after the abolition of zamindari, the assessees

found it difficult to pay their dues which were to be adjusted in their Zamindari Abolition compensation money. Some of the big assesseses have also obtained stay orders from various courts. The U. P. Agricultural Income Tax (Amendment) Act, 1954, received the assent of the Governor in October, 1954, and as such action for the assessment and collection of tax pertaining to 1360 Faslî could not be taken at proper time.

The amount of tax enhanced and reduced, as a result of these appeals, was Rs. 11,743-7 and Rs. 4,16,910 respectively.

(e) *Revisions*—One hundred and twenty revision cases were pending in the Court of the Agricultural Income Tax Board, 424 cases were filed during the year under report making total of 544 cases for disposal. Out of these 277 cases were decided by the Board leaving a balance of 267 cases. The amount reduced and enhanced, as a result of these revisions, was Rs. 128-7 and Rs. 15,777 respectively.

(f) The annual average expenditure for the last six years comes to Rs. 2,28,025 against the average collection of Rs. 88,02,162. The cost of administration works out to be at 2.5 per cent of the tax collected.*

*NOTE—The report for the previous year contained figures relating to Faslî year, while the figures in the above report related to Revenue Year. Hence there is some variation in these figures for the two years.

22. **Revenue Buildings**—The condition of Revenue Buildings in the Pradesh during the year under report was on the whole as satisfactory as could be expected under the circumstances. Much has to be done to improve their condition. Many buildings require alterations and many others additions in order to meet the requirements of largely enlarged staff working these days. There are some which require renovation to make them safe and quite a few require complete replacement. The Kuchcha and irreparable buildings of the merged and integrated States were demolished and the rest were repaired to make them habitable.

Construction of new major and minor works were again considerably curtailed due to paucity of funds. The Collectorate buildings at Deoria, Sub-Divisional Magistrate Court building, Uttar Kashi, Chaprasi lines at Uttar Kashi and new room for the double lock at Lansdowne District Garhwal were however completed. The electrification of collectorate buildings at Jaunpur, Deoria, Unnao, Gonda, Etawah, Kheri, and Etah has also been approved and the works are in progress. The dearth of residential and office accommodation due to increase in offices and staff both in districts and tahsils continued as before. While little could be done by Government to remove the shortage of residential accommodation due to paucity of funds, some work was done towards the construction of residential quarters in certain districts by the Local Bodies and private enterprise. Some buildings were hired and extensions in the existing buildings were made at some places to relieve congestion in the offices. A Scheme for extensions to remove the congestion in tahsils and Collectorate buildings in the State has been approved by Government. It is to be spread over a period of 8 to 10 years in respect of Collectorate buildings and over 3 to 4 years in respect of tehsil buildings. The Scheme for extension of tehsil buildings is already in hand and the work of extensions in the Collectorate buildings will be taken up from the financial year 1955-56.

Steps were also taken to improve the condition of roads in the Court compounds of the District and Sub-Divisional Officer and to provide Hawalats in some Districts. A visitors shed and a Hawalat have been constructed at Banaras and at Lucknow respectively.

Two appeals were also filed but were not decided till the end of the year. The total expenditure incurred during the year amounted to Rs. 70,658.

(iii) *District Basti*—Eighty alluvial villages or tehsil Basti, Khalilabad and Harralya of this District were placed under survey and record operations during the year under review. Resurvey was carried out in 24 villages comprising an area of 15,361 acres and map correction was done in 15 villages with an area of 2,228 acres. The total expenditure during the year was Rs.17,049.

During the course of partial and attestation of Khatanni slips 2,510 disputes were registered of which 2,493 were disposed of leaving a balance of 17 cases at the close of the year.

(iv) *District Kheri*—Out of 402 villages of Tahsil Nighasan of this District 121 villages were placed under survey and record operations. Regarding the remaining villages of this Tahsil, it was decided that map correction followed by special partial should be carried out. Later on during the course of record operations, it was found that regular survey operations were necessary in 18 more villages. These villages were therefore, also placed under survey and record operations during the year

under report. Survey work in all the villages comprising an area of 1,62,823 acres was completed during the year, and an expenditure of Rs.82,330-5-9 was incurred.

Seven hundred and tow regular cases of correction of Khataunnis were filed out of which, 635 were decided leaving a balance of 67 cases at the close of the year, 51,677 disputes were decided on the spot.

24. **Mutations**—The total number of changes affected in proprietary right in the areas to which Zamindari Abolition and Land Reforms Act does not apply stood at 19,773 as against 25,932 in the preceding year excluding transfers effected under orders of Courts. Changes were effected in 489 cases under the orders of Court, 8,938 cases by private transfers, and in 9,212 cases by succession as against 830, 5,865 and 18,478 respectively in the preceding year. There were 66 mortgage cases as against 98 in the preceding year. Changes were also effected in 58 cases on account of redemption of mortgage as against 174 in the previous year. There were 1,499 cases of other transfers as against 1,317 to the preceding year.

As regards the areas to which Zamindari Abolition and Land Reforms Act applies, changes were effected in 60,835 cases as against 29,903 in the preceding year. Changes were made in 604 cases under orders of Court and in 38,770 cases by private transfers as against 439 and 16,612 in the preceding year. There appears to be a general tendency on the part of non-agriculturists small ex-intermediaries, who live in urban areas to dispose of their small *sir* and *Khand-kasht* holdings in rural areas, which are uneconomical to them. There is also an irresistible temptation to sell such land in view of high market value of cultivable land. Slight depression in the price level of agricultural commodities has also been responsible for the transfer of newly acquired Bhumidhari right in some cases. Changes were effected in 21,461 other cases as against 12,852 in the preceding year. In the latter cases the increase may be attributed to the fact that in 1360 Fasli due to pre-occupation of Lekhpals with the preparation of Zamindari Abolition Compensation statements, no *khataunnis* were prepared nor was any partial done except in those villages in which crop cutting experiments were carried out. In 1361 Fasli when new *khataunnis* were prepared a large number of changes due to deaths and transfers were effected.

25. **Partitions**—At the beginning of the year under report, 232 cases of perfect partitions were pending for disposal in the areas to which the U. P. Zamindari Abolition and Land Reforms Act does not apply. In addition to this 346 application were filed in Kumaun Division where the partition proceedings are still in progress. Thus the total number of perfect partition cases pending for the disposal during the year under report was 578. Out of these, 342 cases were disposed of leaving a balance of 236 cases pending at the close of the year.

Sixty-three imperfect partition cases were pending at the beginning of the year and the number of institutions during the year was 17, leaving a total of 80 cases for disposal during the year under report. Out of these 19 cases were disposed of, leaving a balance of 61 cases at the close of the year.

26. The Governor has much pleasure in recording his appreciation of the services rendered by the Land Reforms Commissioner, the Board of Revenue, the Director of Consolidation of Holdings and the District Officers and District Staff.

ORDERED—That a copy of this resolution be forwarded to the Land Reforms Commissioner, Uttar Pradesh, for information.
